FIND WHAT YOU NEED
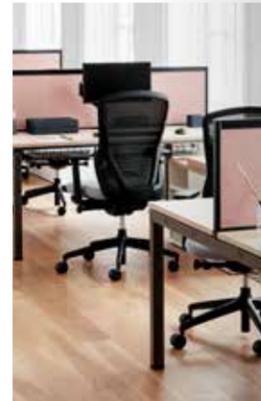

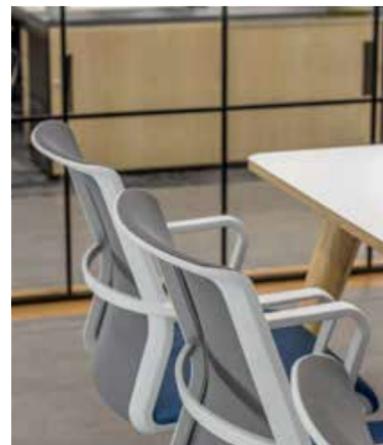

WE HAVE THREE PRODUCT BRANDS...

THEY COMPLIMENT EACH OTHER PERFECTLY

01
SENATOR

Senator designs and manufactures innovative furniture for workspaces.

Task and Multi-purpose seating, desking systems, tables, storage – Senator's wide range of options matches the greater demands of today's workspaces. Senator also offers Settings™ workspace analysis and planning. The unifying factor is intelligent design, executed by a mix of craft skills and advanced production technology.

02
Allermuir

Allermuir creates contemporary furniture for the leisure and corporate sectors.

Allermuir's creative influence can be seen in public spaces, reception areas, breakout zones, bars, cafes and restaurants all over the world. Frequently collaborating with world-class designers, Allermuir makes sure quality is consistently high by bringing all products to life with its own manufacturing facilities.

03
Torasen™

Torasen offers simple but very clever, cost conscious furniture.

Product ranges include task seating, multi-purpose seating, reception seating, desking and storage to meet the most challenging budgets and timescales.

SENATOR

Innovation Underpinned By Beauty

The Senator ethos is founded on understanding the workplace in all its variations, and how people use and occupy the space.

To stay ahead of these ever-evolving dynamics, they combine their own knowledge with the insights of workplace consultants, academics and analysts. The results of this approach can be seen in solutions all over the world.

Contents

i-Workchair

THE ART OF MOVEMENT

WRK360FD

4D Arms / Headrest

i-Workchair has the ability to replicate a wide range of movements with ease and comfort. Utilising a new generation of synchronised tilt action, i-Workchair mirrors the body's natural pivot points, providing a seamless transition between upright and reclined postures.

Design by
Justus Kolberg

WRK360FD

4D Arms / Headrest

Although we may think we sit still at our desks, we actually move more than we realise. The back of the i-Workchair has the ability to flex and move even when in a locked position, as well as supporting a level of sideways and rotational actions that facilitate good spinal health as we sit and work.

i-Workchair

THE ART OF MOVEMENT

WRK140FD
4D Arms / Black Components

Utilizing a multi layered approach i-Workchair features a 3D perforated cut foam structure encased in two layers of elastomeric knitted fabric. This optimizes comfort while allowing excess heat to vent away from the back muscles, reducing fatigue.

WRK240FD
4D Arms / Graphite Components

As we move our back, our arms move with us and it is this fluid motion that inspired the design of i-Workchair. The chair's central column and arms are joined through an innovative aluminium bridge. This then connects to flexible mounting bushes that allow the back a higher range of flexibility.

Design by
Justus Kolberg

Evolve

TASK SEATING, REINVENTED

EV2640HA

Fully Upholstered /
Height Adjustable Arms

With its ergonomically contoured back construction, flexible movement and lumbar adjustment, Evolve offers a level of comfort and support that is unsurpassed.

EV2740HA

Airflow Back Mesh /
Height Adjustable Arms

Evolve incorporates a new advanced synchronised mechanism with enhanced geometry, that ensures the motion of the chair will mirror the natural pivot of the body throughout its range of movement.

Design by
Paul Brooks

Ousby

CONFIDENCE WITHOUT EGO

OUS740HA

Height Adjustable Arms /
Black Components

Designed using flexible, durable and sustainable
materials that respond to your movements, Ousby is an
organically shaped seating range that provides comfort
and support throughout the day, whatever the task.

Design by
Senator

OUS740HA

Height Adjustable Arms /
Graphite Components

Offering a contoured mesh back, Ousby features
an adjustable integrated lumbar as standard. Its
multi-functional arms accommodate varied tasks
and user preferences. Ousby also features a dynamic
synchronised mechanism with quick tension
adjustment and back locking in 5 positions.

Freeflex

I LIKE THE WAY YOU MOVE

FLX740HA
Height Adjustable Arms

Freeflex provides a clever and adaptable solution to support the user's movements in their working environment. Flexibility is central to the design of Freeflex, giving the user the freedom to make simple adjustments; to their seat height, seat depth and back height to achieve ultimate comfort.

Design by
Justus Kolberg

FLX740HA
Height Adjustable Arms

In designing Freeflex, special attention was paid to the user's natural pivot points, where they flex and where they don't. This inspired the development of a dynamic weight balancing tilting action along with an articulated flexing back that intuitively encourages movement, while providing proper support in all positions.

Freeflex

I LIKE THE WAY YOU MOVE

Design by
Justus Kolberg

Clipper
BEND ME, SHAPE ME

CL740HA

Height Adjustable Arms / Lumbar

Clipper can be finished in one of six mesh back options, from the traditional neutrals to a palette of vibrant colours. Combined with Black or Light Grey components, an option for a Polished Aluminium base and infinite upholstery choices, Clipper can be customised to suit any style.

Design by
Senator

CL740HA

Height Adjustable Arms

The Clipper task chair delivers fantastic comfort with simple elegant styling. However, it is capable of providing a comprehensive suite of adjustments and features a dynamic synchronised tilt action.

Ecoflex

LESS IS MORE

ECF740HA
Height Adjustable Arms

A minimal masterpiece, combining a clean understated aesthetic design with outstanding functional flexibility. It's stylish, light and built with sustainability in mind, so it makes an impact on any interior without making an unnecessary impact on the environment.

Design by
Justus Kolberg

ECF740HA
Height Adjustable Arms

You feel at home in an Ecoflex because it's designed to fit around you. You can adjust everything from seat depth to lower back support with simple, intuitive controls. Plus, a rotational four stage travel limiter helps you maintain the open, fluid action of the chair - a feature that has recognised back health benefits.

Ecoflex

LESS IS MORE

The variety of finish options make Ecoflex an ideal choice when designing creative and innovative environments. Its plastic components are available in either light grey or black, the perfect frame for the wide range of six back mesh colours available.

Rapt
FOCUSED SIMPLICITY

RAP124G

Medium Back / Four Star Base / Glides

Rapt exudes poise and offers a fresh alternative to the established norms of executive seating. Created for environments where key decisions are made, where success happens and where extraneous distractions need to be eliminated.

Design by
Jonathan Prestwich

RAP124G

Medium Back / Four Star Base / Glides

The elegant and minimalistic design also provides exceptional comfort, featuring generous proportions and an anatomically shaped, cushioned seat and back. The one piece aluminium arm rest with a leather inlay envelops the chair beautifully and creates a strong continuous structure.

Rapt
FOCUSED SIMPLICITY

RAP125C
Medium Back / Five Star Base / Castors

A mind over matter approach to executive and conference seating, Rapt is a seating solution designed to elevate the atmosphere and empower effortless decision making. Reflective of status, Rapt creates a prestigious presence in a room with an equally lasting impact.

Design by
Jonathan Prestwich

RAP215C
High Back / Five Star Base / Castors

Rapt is an extremely versatile family of chairs, with a choice of back heights, mechanism and bases together with a full range of upholstery options. The reason for so much choice is simple, before pencil reached paper we observed how people sit, reach, move and work to create solutions that responded to how people interact with their environment.

RAPT

An elegant and
minimalistic design

Circo

THE ONE AND ONLY

CR4
Five Star Base / Glides

Circo is a functionally simple, light work conference chair for ad hoc touch down working environments. Circo has a permanent floating action and a mesh back that morphs to support the user. These features are suitable for both conference and meeting environments.

CR1
Five Star Base / Castors

With a choice of upholstered or leather finishes plus the option of an integrated tilt action, Circo effortlessly adjusts to the way you work and the environment you work in. It's equally at home with castors or glides and its mesh back is available in a range of contemporary colours to suit your style.

Design by Justus Kolberg

Circo

THE ONE AND ONLY
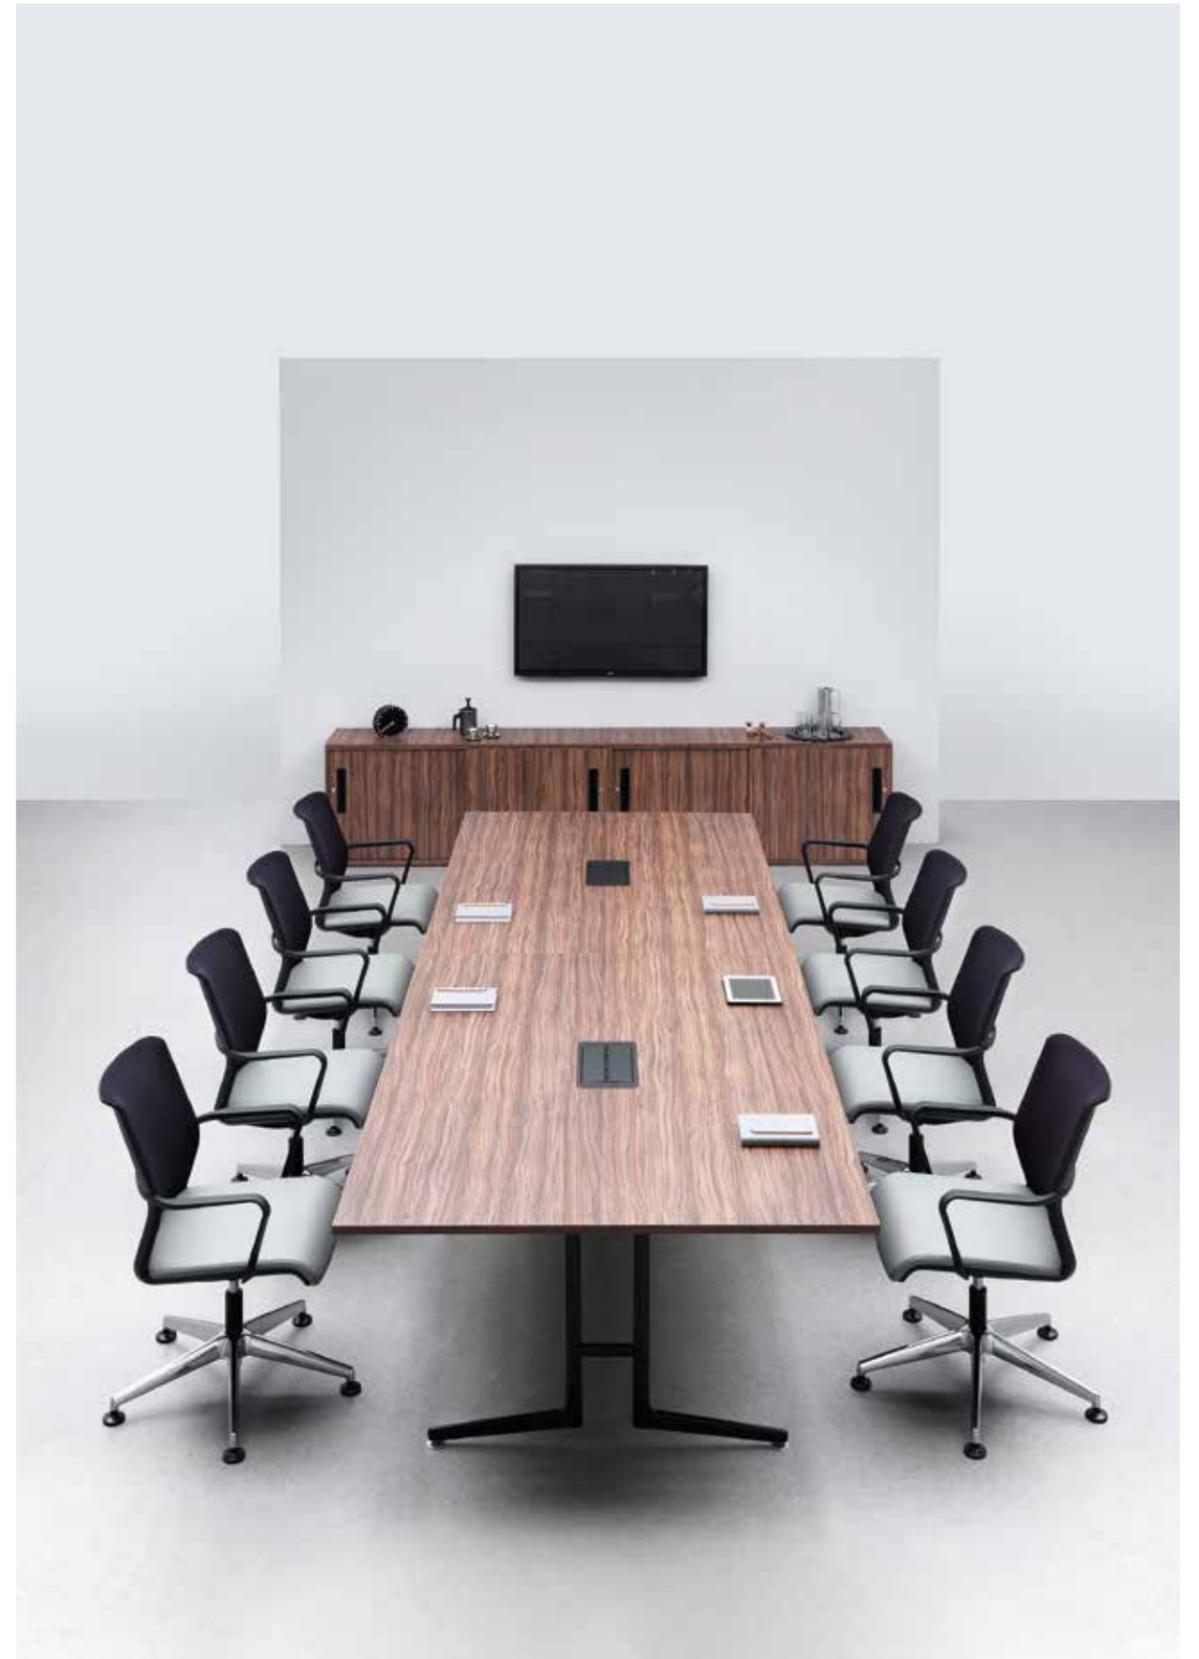

Symmetry
CAREFULLY CONSIDERED

SY01
Split Seat and Back

Symmetry offers eco-friendly design and people friendly ergonomics. The shell is linked to the frame with polished aluminium castings and the arm pads are made from a tactile soft material.

SY03
High Back / Mono Shell

Symmetry is a carefully considered design, featuring a range of complementary cantilever chairs that can be coordinated throughout an office environment.

Design by Senator

Rhapsody
SIMPLE YET BEAUTIFUL

RH901
Medium Back / Cantilever

This design provides the very best in comfort and relaxation. Its curvaceous form and cantilever back make this chair a product of beauty to complement the smartest of interiors.

RH900
Medium Back / Five Star Base

Rhapsody, a fully upholstered armchair is an elegant, sumptuous design with flowing lines and contemporary styling.

Design by Paul Brooks

Ad-Lib

ANYTIME, ANYPLACE, ANYWHERE

ADL12A
Ad-Lib Four Leg

The four leg variant of our Ad-Lib multi-purpose seating range is an ideal meeting chair. The option of castors offers a mobile solution and the diversity of finish specification choices gives this chair a truly varied palette.

ADL12AC
Ad-Lib Four Leg / Castors

The four leg variant with castors is seen as a general purpose meeting chair, ideally suited to social, training, team work and conference environments.

Design by PearsonLloyd

Ad-Lib

ANYTIME, ANYPLACE, ANYWHERE

ADL1
Ad-Lib Skid

Through the creation of Ad-Lib we have studied the current and developing needs of people and their environments. The result is a highly intelligent structure that provides a vast scope of models and finish options making it easy to specify.

ADL8A
Ad-Lib Cantilever / Fully Upholstered

The stacking cantilever variant is seen as a general purpose meeting chair suitable for longer duration meetings. Ideally suited in meeting, team work and conference environments.

Design by PearsonLloyd

Ad-Lib

ANYTIME, ANYPLACE, ANYWHERE

ADL14A
Ad-Lib Conference / Plastic Back

The conference version with its four star base is seen as a boardroom or meeting chair. The inclusion of the dynamic yoke incorporates a free floating tilt action and seat height adjustment which enhances the ergonomic performance of this chair.

ADL10A
Ad-Lib LiteWork / Fully Upholstered

Ad-Lib LiteWork multi-purpose chairs have been designed to provide diversity, without compromising on cost, performance or build. With changing work styles today, more and more time is spent away from the traditional desk and as such the role of multi-purpose seating has become increasingly important.

Design by PearsonLloyd

Ad-Lib

ANYTIME, ANYPLACE, ANYWHERE

ADL5AD
Ad-Lib Stool / Plastic Back

The stool version with its five star base and glides provides a solution for ad hoc touch down working environments, as well as team based project meeting and media presentation areas.

ADL15D
Ad-Lib Stool / Upholstered Seat

The diversity of finish specification options together with the upholstery options give Ad-Lib a truly varied palette.

Design by PearsonLloyd

Ad-Lib

SCHOLAR

Ad-Lib Work Lounge

WORK, REST, PLAY

ADLWL03

Ad-Lib Work Lounge / Headrest / Castors

Ad-Lib Work Lounge has been developed as a unique solution to enable movement, flexibility and teamwork, breaking away from the static environments of traditional work settings. Described as a 'mobile soft seat', it is designed for collaborative work spaces, enabling the user to move location easily. Writing tablet is optional.

ADLWL02

Ad-Lib Work Lounge / Glides

When creating Work Lounge, PearsonLloyd evolved the design, introducing a new construction methodology that has significantly reduced the use of PU foams. This has resulted in a light environmental footprint for this type of product.

Design by PearsonLloyd

Ad-Lib Scholar

IN A CLASS OF ITS OWN

ADLED6A

Ad-Lib Scholar / Castors

The addition of the Scholar version to the Ad-Lib family recognises the changing nature of learning environments. The orbital foldaway tablet is a key element of this flexibility whilst the under seat storage tray and drink holder complete the holistic solution.

ADLED1

Ad-Lib Scholar / Castors

Offering functional versatility, the Ad-Lib Scholar can come in a range of solutions, featured with and without arms, the perfect partner for changing environments.

Trillipse
THE TRUE ORIGINAL

T117A
Trillipse Motion

Trillipse includes a host of options to enhance its versatility. The Motion model adds castors to the base frame, making the chair ideally suited to the educational sector and training rooms.

T105A
Trillipse Cantilever

The Cantilever version of Trillipse further enhances the range and delivers fantastic comfort thanks to its triliptical cantilever frame.

Design by Paul Brooks

T104A
Trillipse Four Leg

Trillipse is the original multi-purpose chair family. It is the scale, comfort and uncompromising build quality that has ensured the continued success of this range. The four leg variant was developed as a general purpose meeting chair.

T114A
Trillipse Four Leg

Trillipse is the original multi-purpose chair family. It is the scale, comfort and uncompromising build quality that has ensured the continued success of this range. The four leg variant was developed as a general purpose meeting chair.

Design by Paul Brooks

Zenith

ELEMENTARY

ZE2A

Fully Upholstered / Oak Veneer arms

Superbly crisp and refined, Zenith is a meeting and conference chair design with the best in comfort and flexibility. Essentially it is a four legged stacking chair designed with multiple arm and backrest material configurations. Oak Veneer arms are optional.
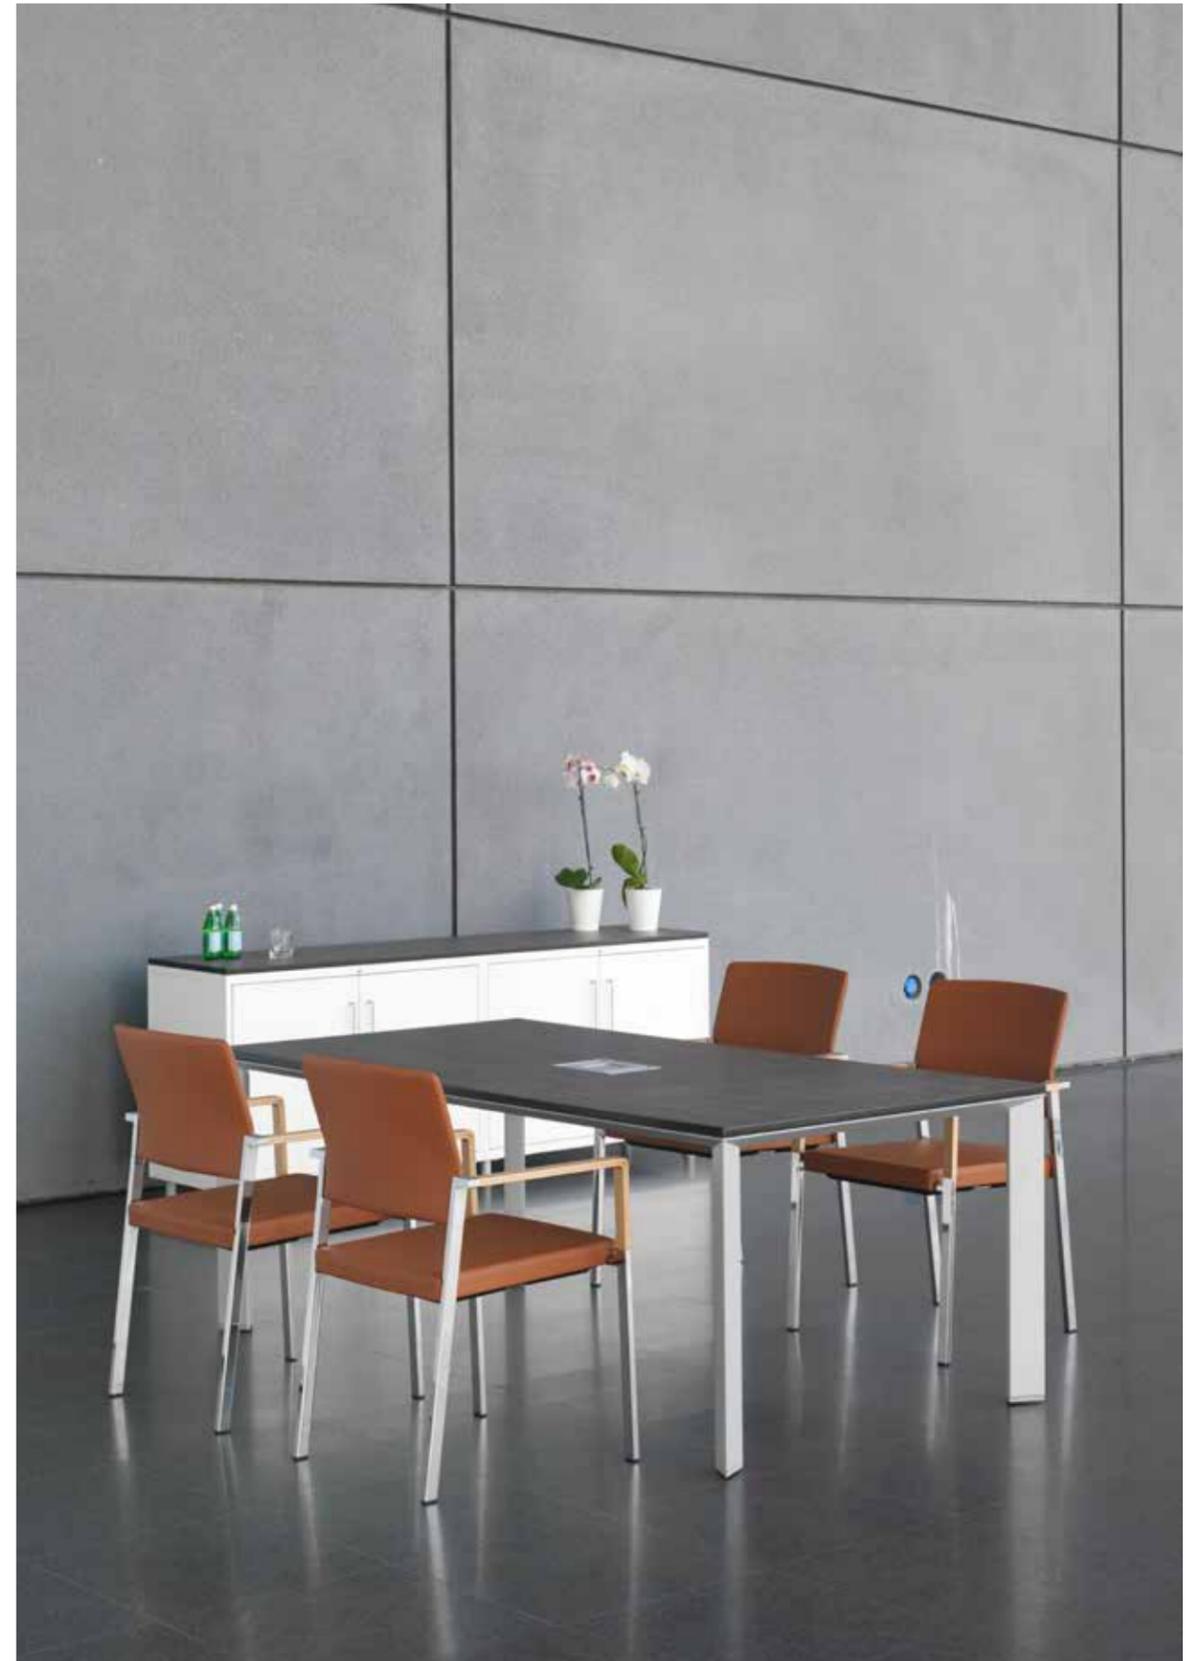

ZE1A

Plastic Back / With Arms

With a design that is so fundamentally simple it is the meticulous attention to detail that sets Zenith apart. The strict formality of its angular styling belie the inherent comfort it delivers.

Design by Martin Ballendat

Elios

HIDDEN DEPTHS

HD405A

Wire Skid Frame / Arms

Elios is a range of slender and versatile chairs that are equally at home in meeting rooms, seminar and conference facilities, training rooms or restaurants.
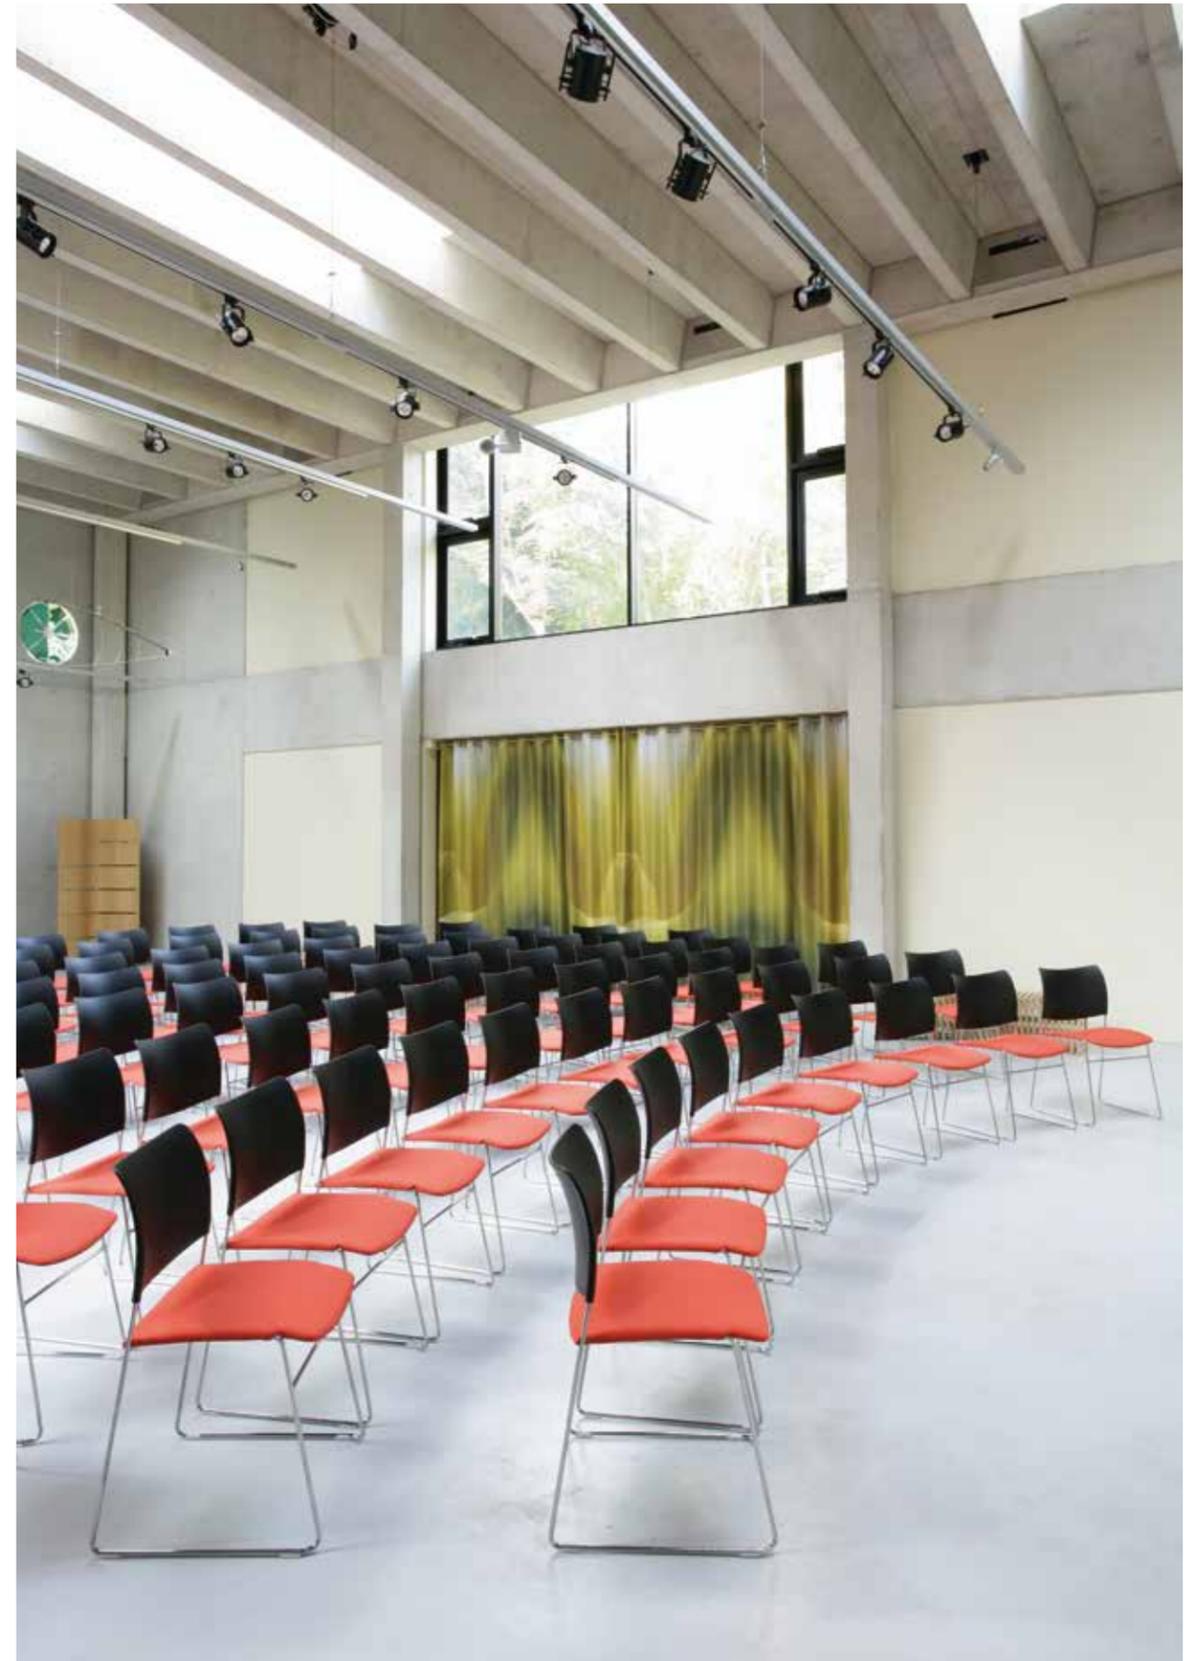

HD405

Wire Skid Frame

Elios is a high density stacking chair that fits comfortably through a standard doorway with up to 40 non-upholstered chairs on a trolley and 12 freestanding. This steel wire framed chair is available with or without arms.

Design by Paul Brooks

Jonny

HERE'S JONNY

JNY01A

Four leg Chair / Arms

An ideal seating solution for both corporate and education environments, Jonny is an inspiring multi-purpose family that provides exceptional comfort through a sophisticated minimalist aesthetic and generous sit.
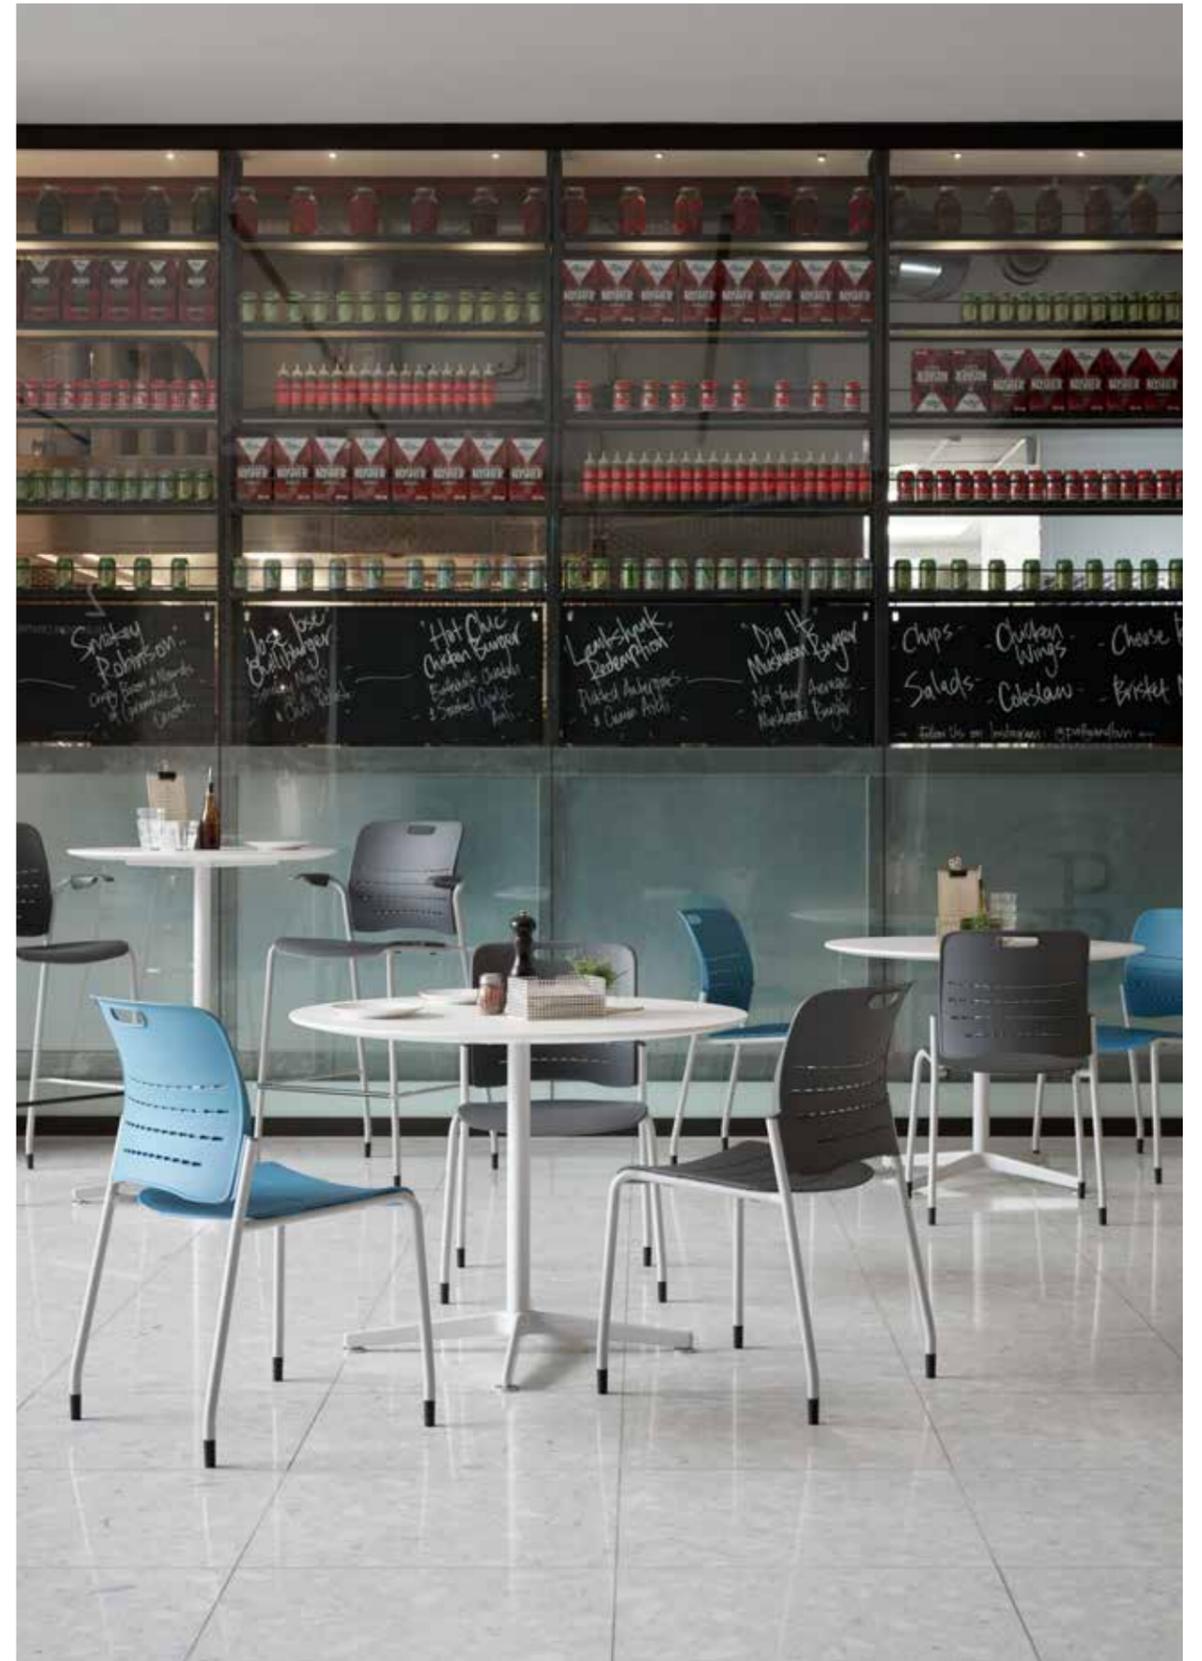

JNY01

Four Leg / Glides

A simple, cost effective and well-engineered stacking chair solution, Jonny encourages collaboration through its responsive, open design that supports a multitude of postures and environments. Jonny promotes natural movement allowing the user the ability to interact and focus on the task in hand.

Design by Senator

Ad-Lib

IT JUST GOT BETTER

Created with collaboration and versatility in mind, the Ad-Lib Table collection designed by PearsonLloyd, now offers an even wider range of finishes and configurations.

Designed to support small impromptu gatherings or larger group meetings, power, HDMI and powered USB outlets are conveniently located under the desk surface and accessed through an easily removable polished acrylic cable access tray.

The tables also now feature an innovative tech knit sock that acts as cable management.
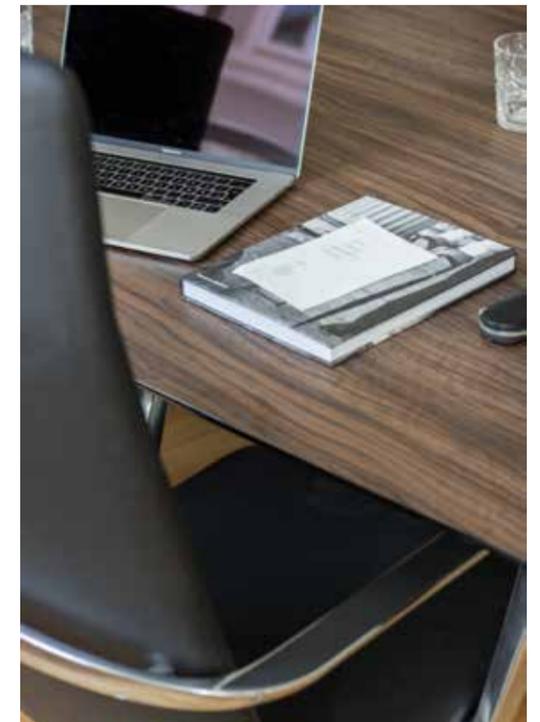

Ad-Lib Tables

Looking at how people work, the Ad-Lib range has evolved and now offers new top shapes and sizes. With technology at the forefront of the design; power, AV and USB outlets are conveniently located and accessed through an easily removable cable access tray.

EXAMPLE CONFIGURATION

When working in collaboration, it is often necessary for conversations to take place away from the desk. Small but dedicated areas like this provide an informal space for short meetings, making efficient use of a space.

EXAMPLE CONFIGURATION

The nature of the space drives its use. A formal meeting area will encourage more structured presentations, a larger meeting space with integrated power enables participants to charge devices and interact throughout.
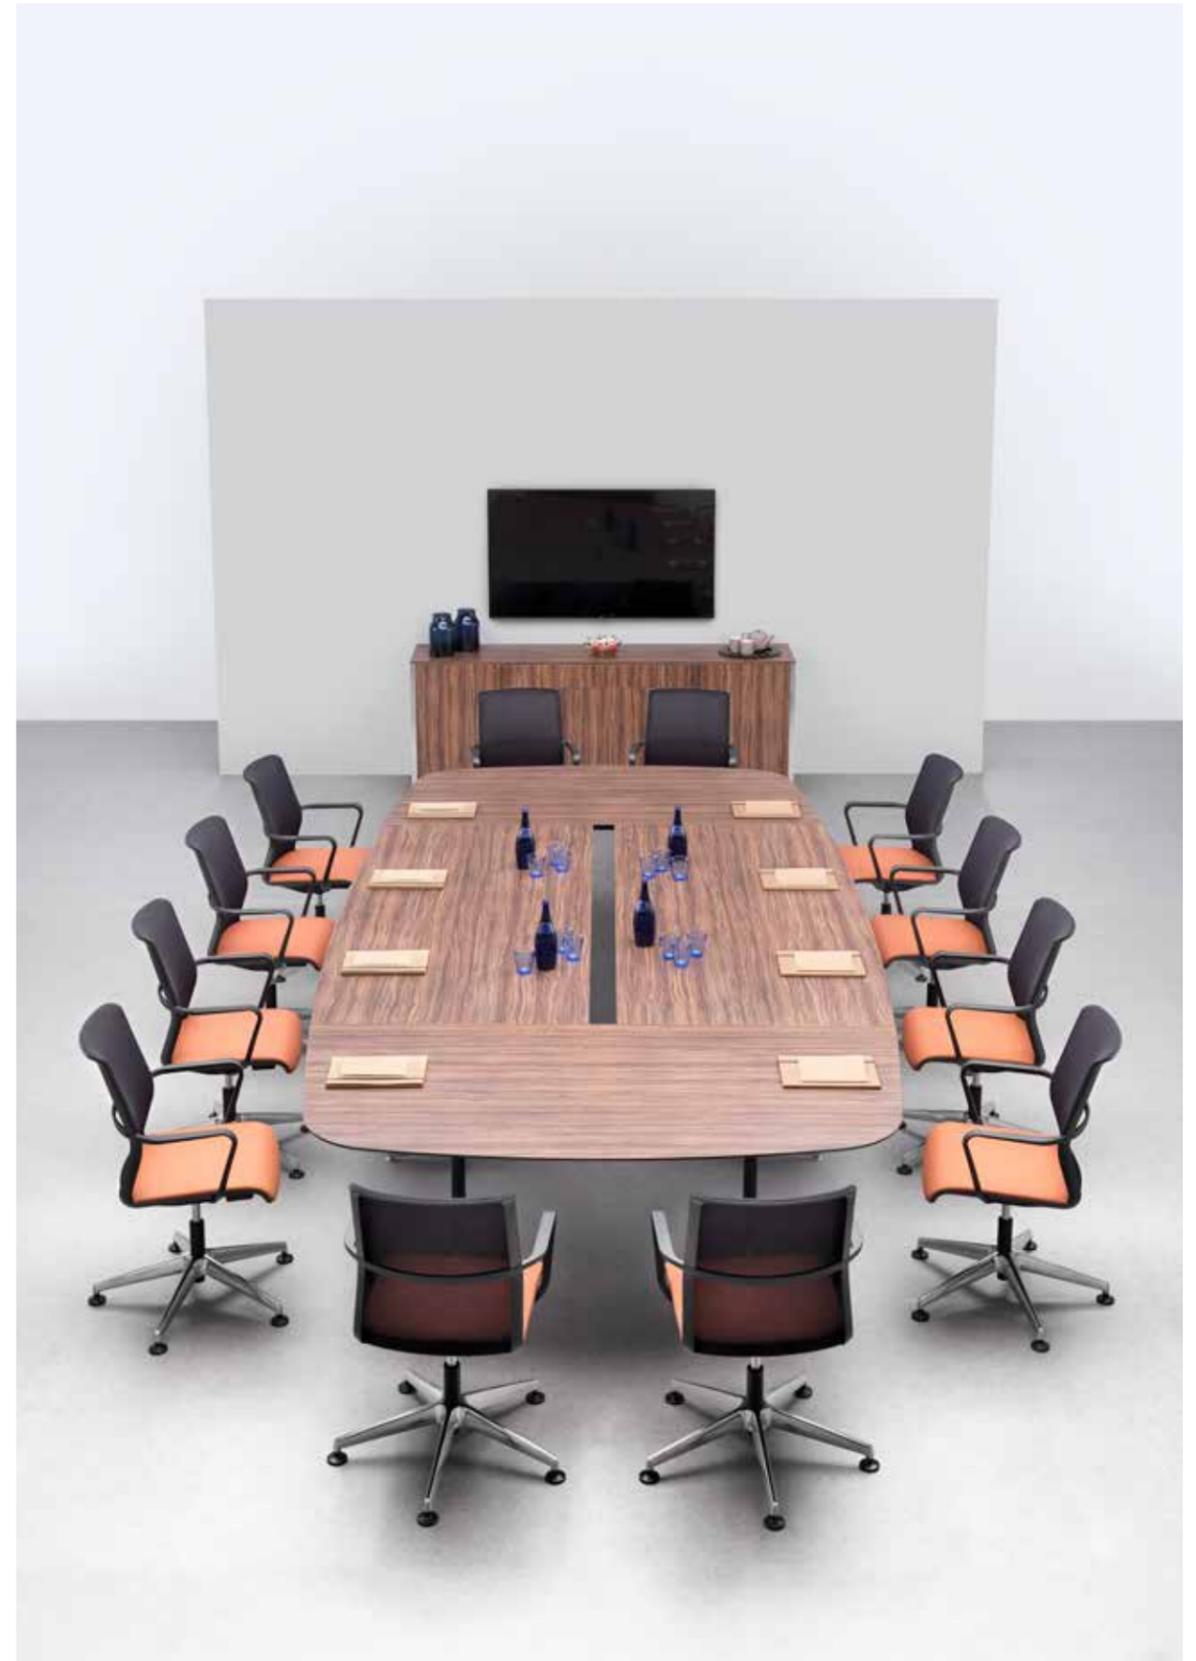

Ad-Lib Tables

Ad-Lib Work Lounge tables are the latest addition to the Ad-Lib range, created using softer lines to enhance visual communication and remove the barriers to workflow.

EXAMPLE CONFIGURATION

Simple details can greatly influence the tone of a meeting. Subtle curves in a table can add informality to put people at ease. A central column eases leg comfort and easy access to power minimises disruptions.

EXAMPLE CONFIGURATION

The right mixture of resources can create a communal space ideal for brainstorming or quick fire sharing of thoughts. This zone makes it easy to jot down and share ideas between colleagues.
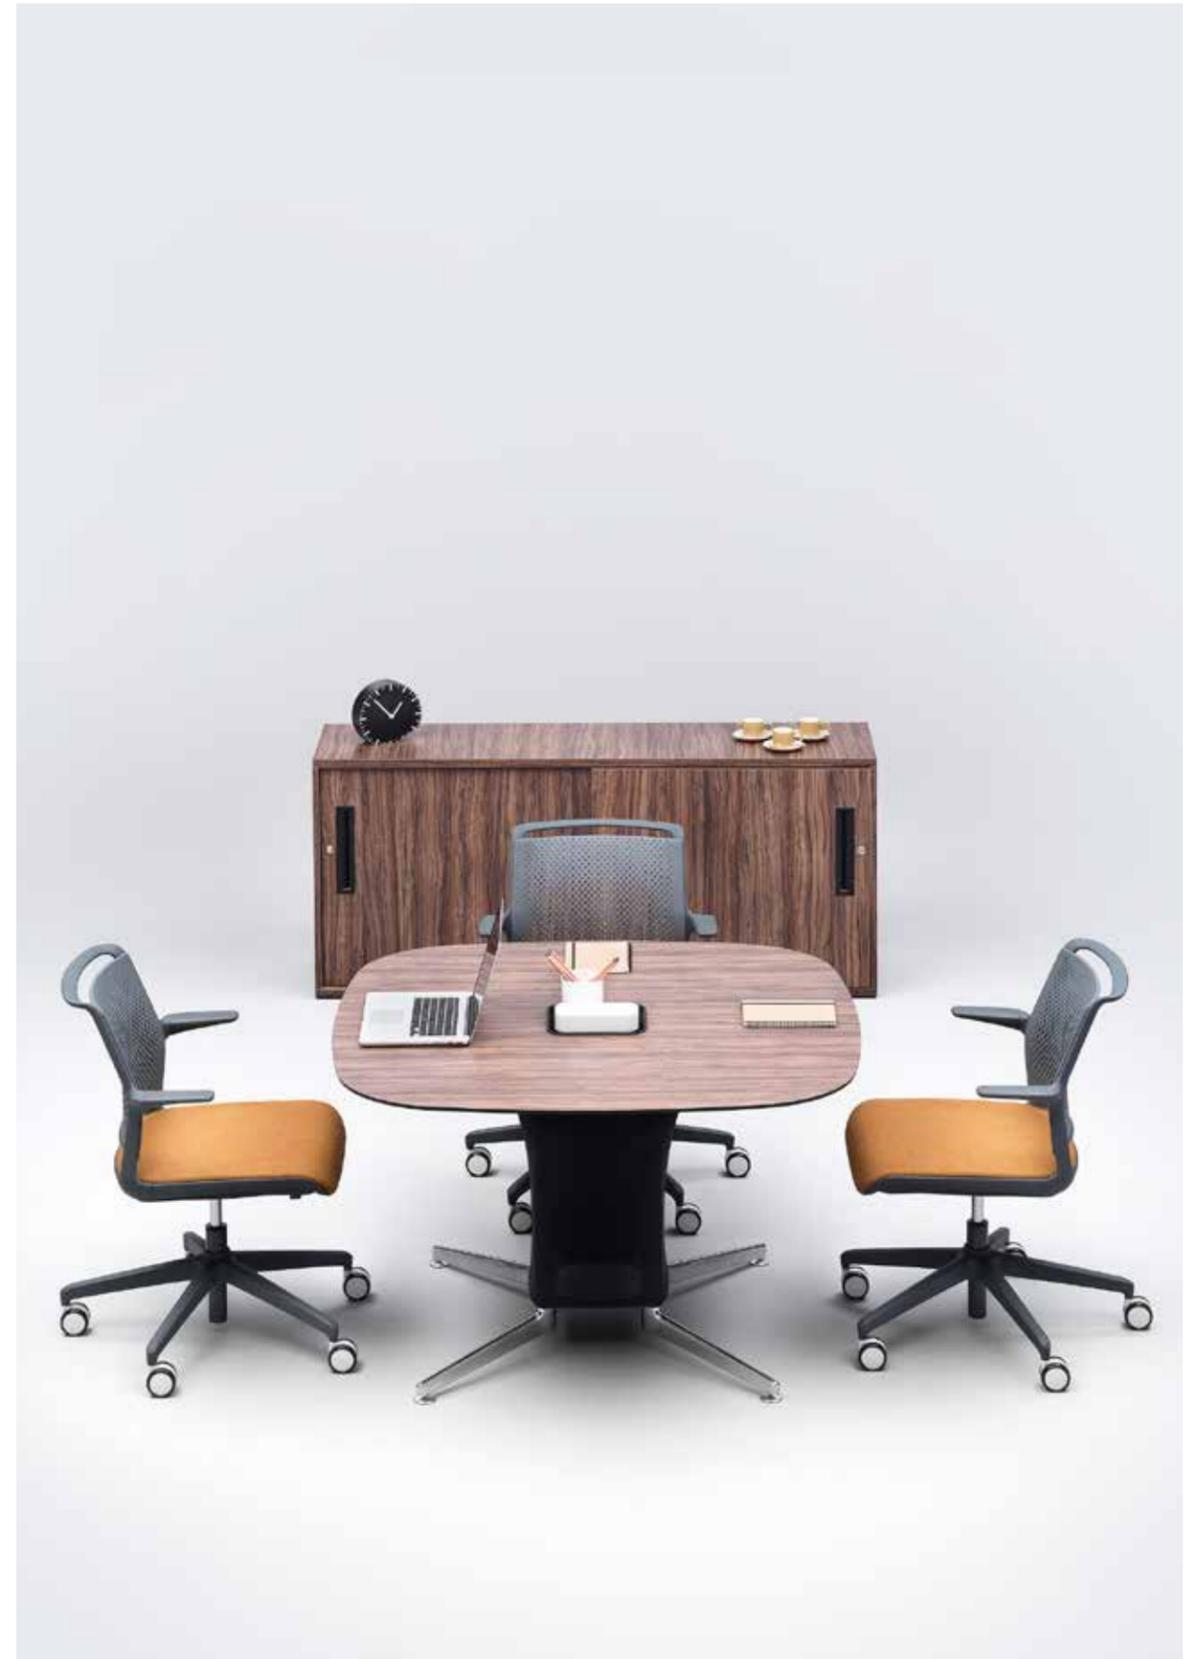

Pivot

Pivot tables actively adapt and change with the needs of today's training, meeting and conference environments. Pivot tables allow for individual use, small groups and can be reconfigured easily with its one touch release mechanism, into larger more diverse configurations and function layouts.

EXAMPLE CONFIGURATION

The U shape setup is well suited to training environments as it creates a relaxed space that allows the presenter to engage with the audience.

EXAMPLE CONFIGURATION

In a learning setting the focus is almost always on the presenter, usually with little interaction required. This space should be suitably comfortable for reasonable periods of time to keep the audience engaged.

Axis

Axis is an innovative and functional table system. Designed around a patented hinge, the table frame folds within its own length for ease of reconfiguration, storage and transportation.

EXAMPLE CONFIGURATION

Conference rooms and meeting rooms need not be traditional in layout. By changing the angles of a meeting table, you can improve the visual lines of communication to improve collaboration.

EXAMPLE CONFIGURATION

This is the traditional layout for learning and training environments, where the focus is on the presenter and not the other members in the audience. Work surfaces should be generous enough to support more than one device.

Chameleon

Chameleon is a simple but elegant table system. The uncluttered detailing allows the tables to be used either individually or arranged to suit a wide range of different spatial and functional requirements.
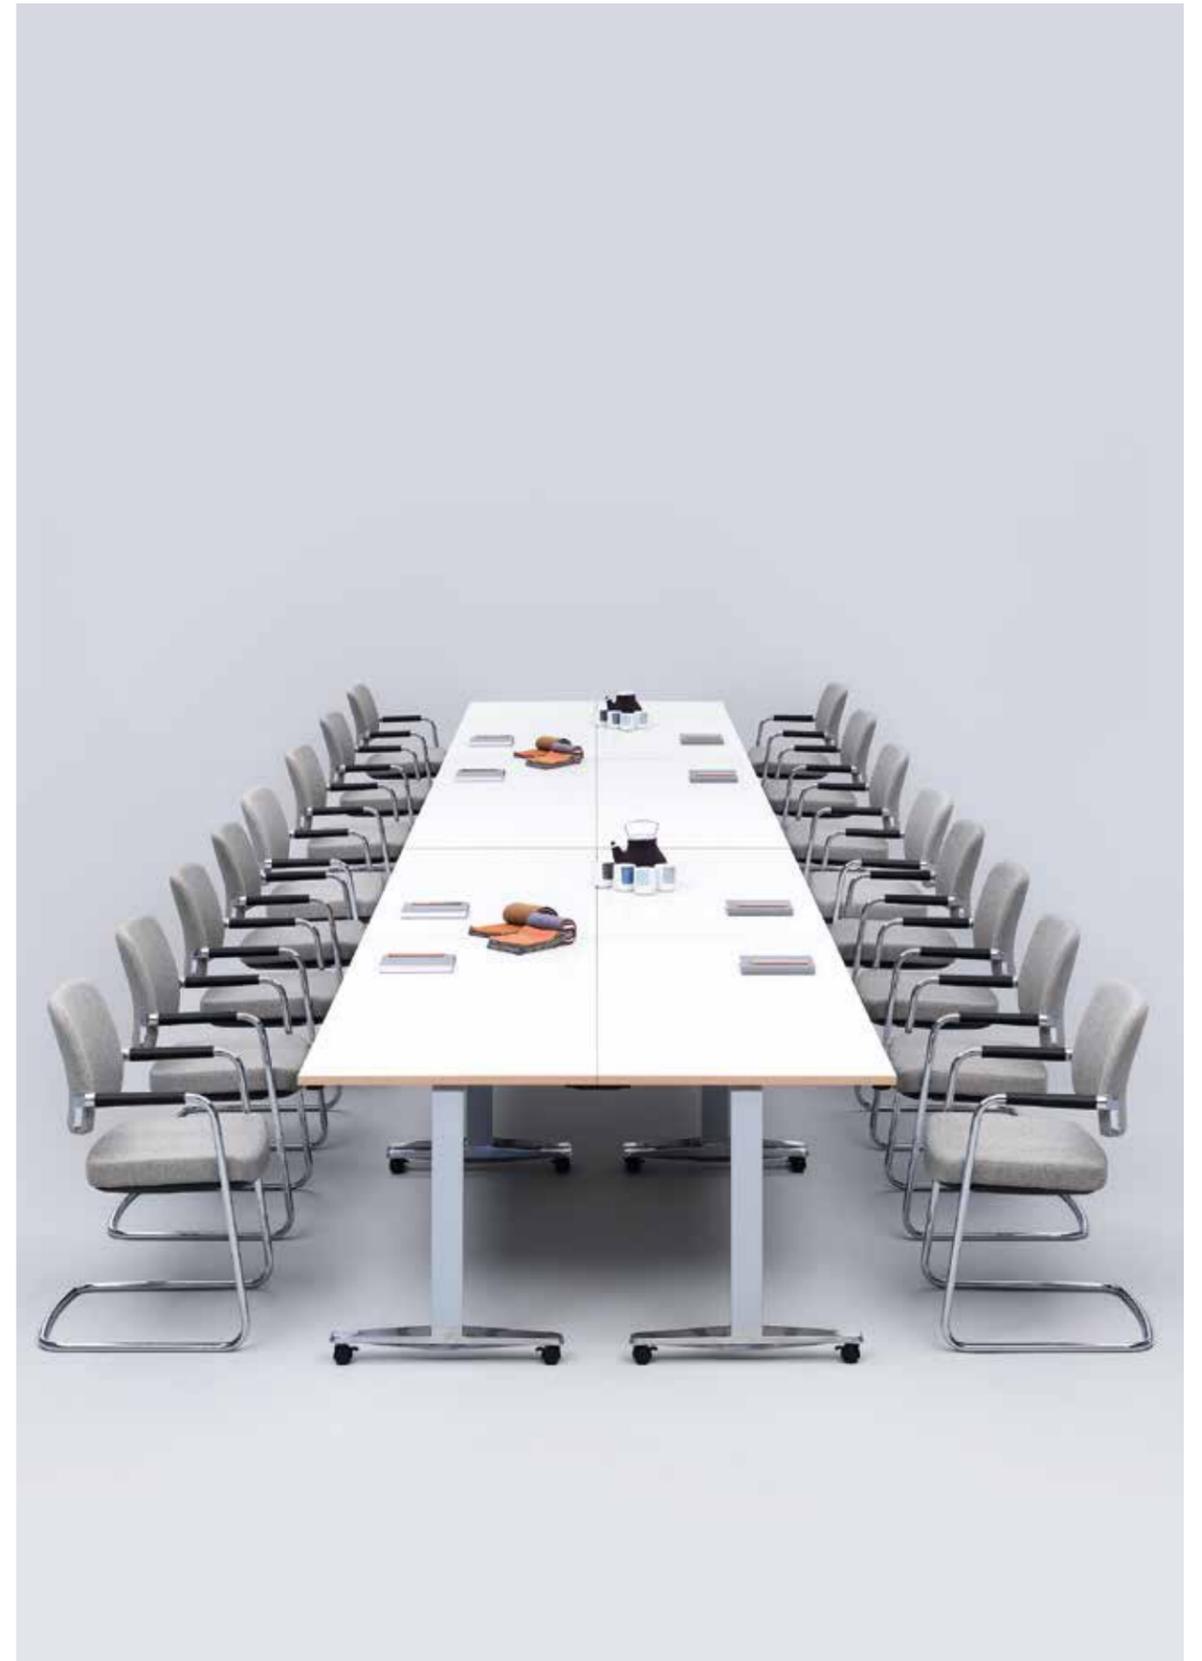

EXAMPLE CONFIGURATION

A U configuration shape setup is well suited to training environments as it creates a relaxed space that allows the presenter to engage with the audience.
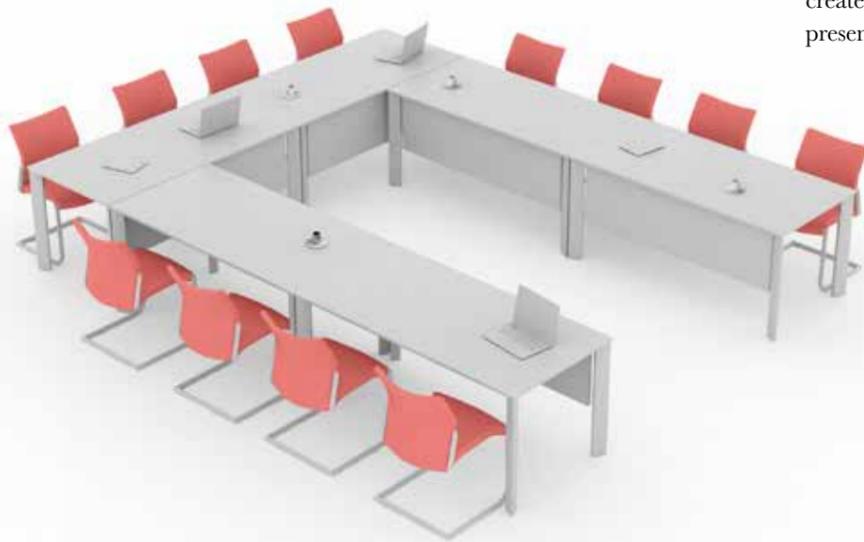

EXAMPLE CONFIGURATION

A formal layout sets the tone of a meeting. One person leads and invites others to comment. Multimedia and white boards can be close at hand for professional and engaging presentations.

Play

The Play meeting table has an elegant poise with its slimline leg and oversized levelling adjuster. Its visual lightness masks the table's strength.

EXAMPLE CONFIGURATION
When working in collaboration, it is often necessary for conversations to take place away from the desk. Small but dedicated areas like this provide an informal space for short meetings, making efficient use of a space.

EXAMPLE CONFIGURATION
The right mixture of resources can create a communal space ideal for brainstorming or quick fire sharing of thoughts. This zone makes it easy to jot down and share ideas between colleagues.
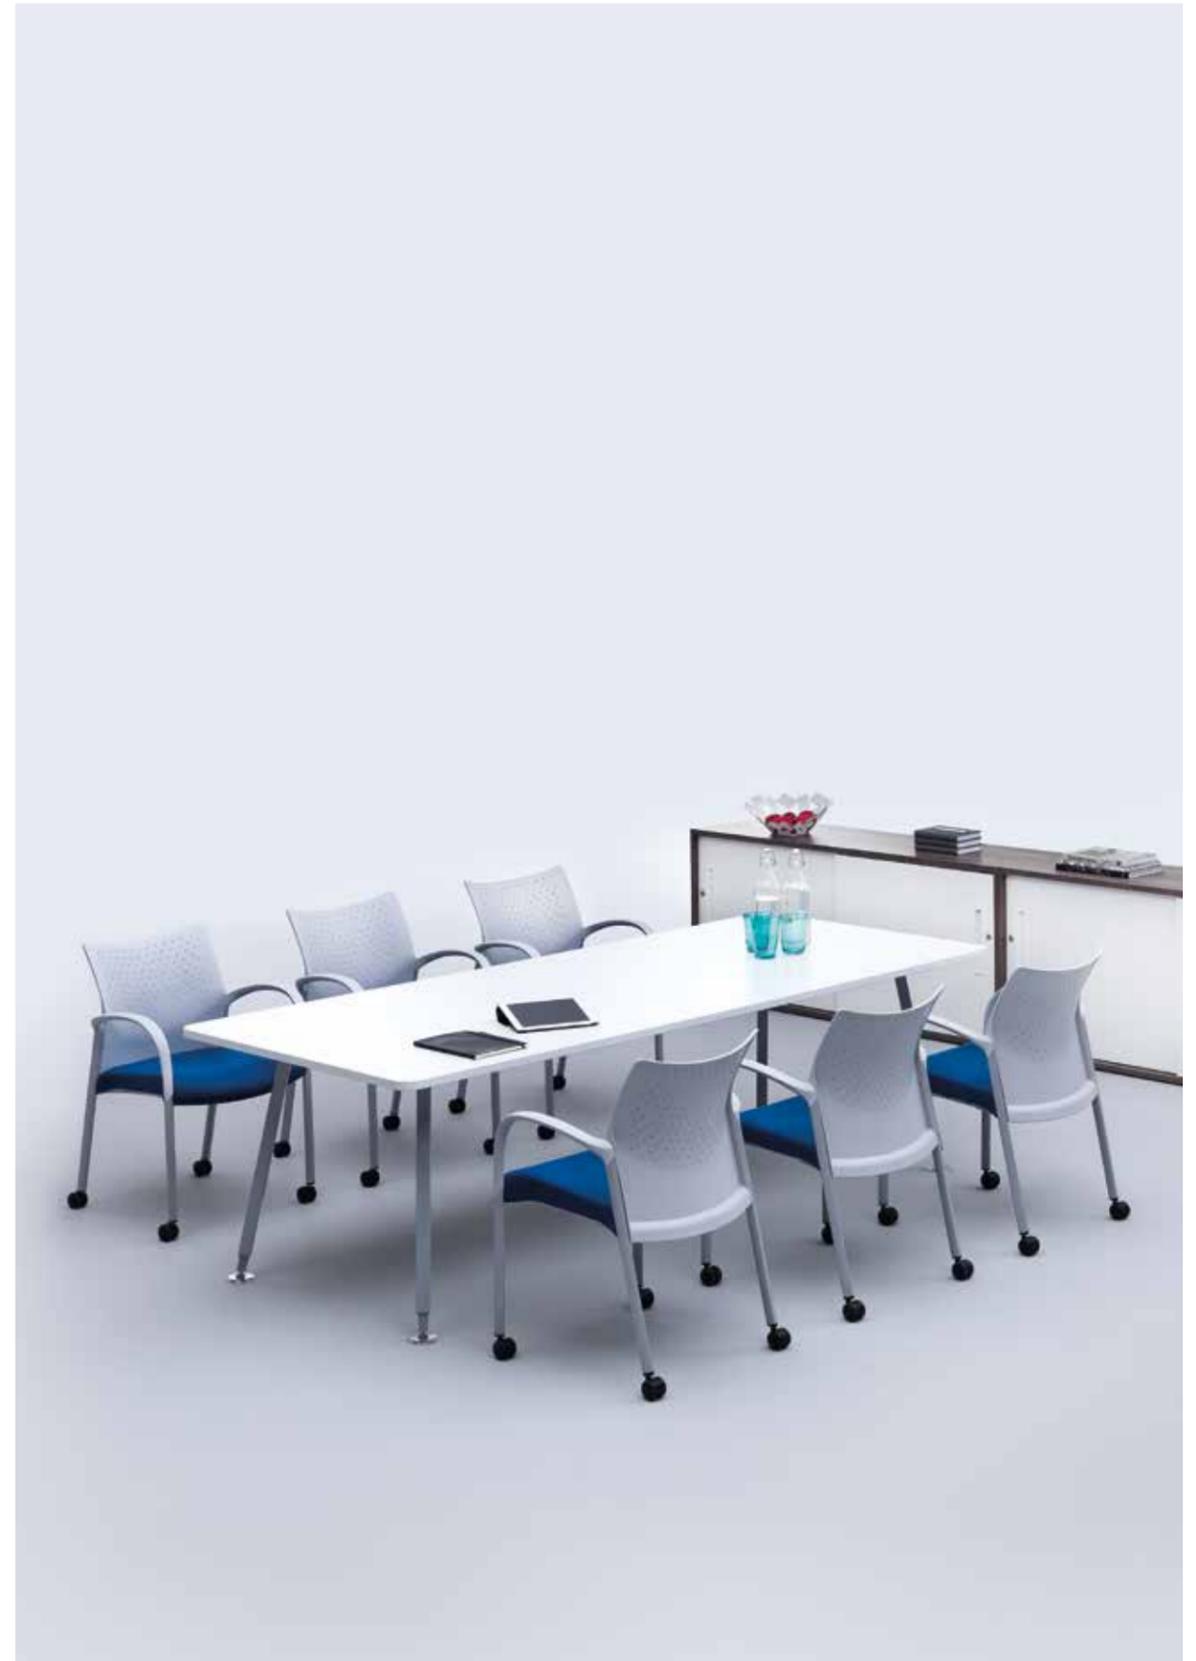

Pailo

BRINGING WORK, HOME

As we continually move towards the desire for a more domestic working environment, Pailo provides a softer approach to the more formal bench desking systems that explores new ways to introduce fabric into the workplace. The range incorporates single and back to back desks as well as multiple project tables to suit both formal and informal working styles.

For keeping personal belongings off the floor and close to hand, Pailo includes the optional addition of a suspended wire caddy, providing an easily accessible space with multiple shelves. Pailo's cloud screens create a place to pin ideas or notes to remember, mounting directly to the understructure of the desk to give the illusion that they are free floating.

Pailo

Pailo provides a softer approach to the more formal bench desking systems that explores new ways to introduce fabric into the workplace. The range incorporates single and back to back desks as well as multiple project tables to suit both formal and informal working styles.

EXAMPLE CONFIGURATION
For keeping personal belongings off the floor and close to hand, Pailo includes the optional addition of a suspended wire caddy, providing an easily accessible space with multiple shelves.

EXAMPLE CONFIGURATION
Pailo's cloud screens create a place to pin ideas or notes to remember, mounting directly to the understructure of the desk to give the illusion that they are free floating.
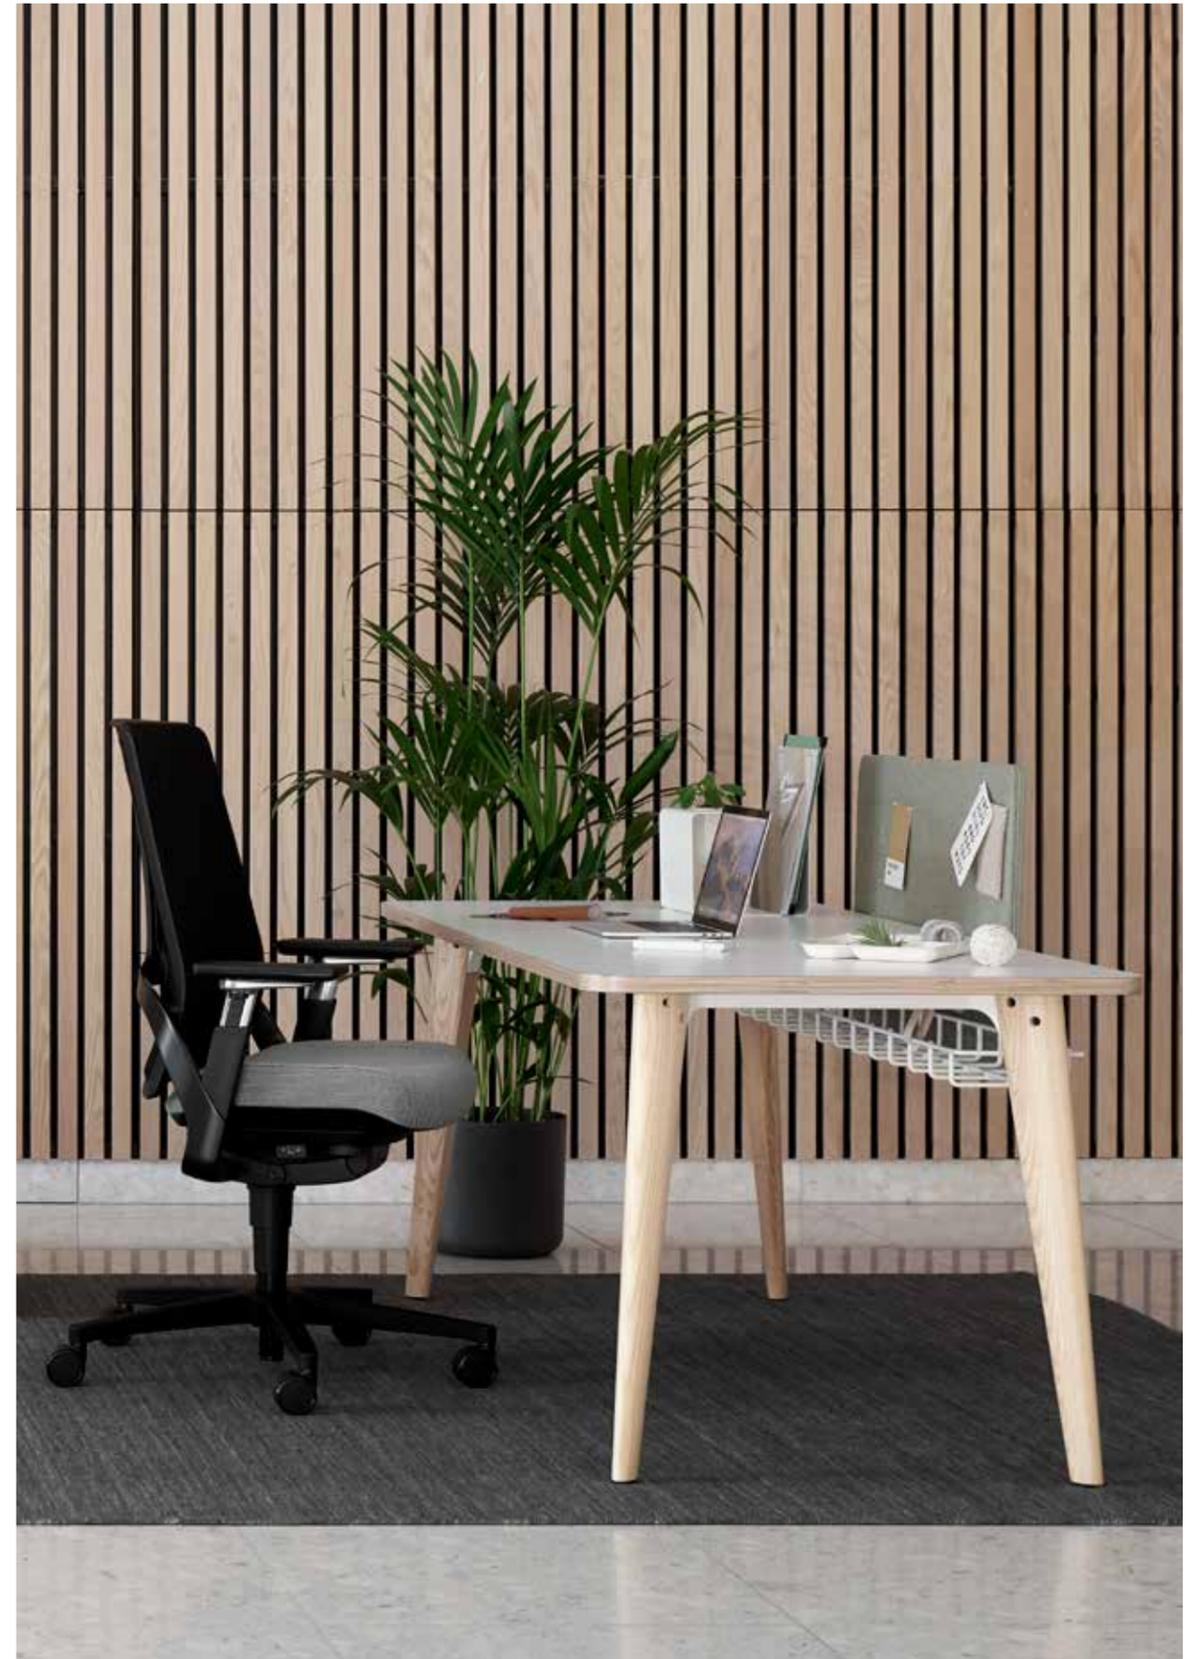

Orb

Orb allows instant ad-hoc configurations between co-workers that can often prove the most insightful. Creating a structure to a space that fosters a fluid working style and an environment that encourages movement and interaction is fundamentally important.

EXAMPLE CONFIGURATION

This is an alternative variation of a four person desk system for employees that will be based at the desk around 8 hours a day. A change in desk shape can help make the space more visually interesting.

EXAMPLE CONFIGURATION

Areas that support solo and team working often benefit from a breakout space close to hand. Encouraging a change of posture when working has been known to improve productivity and help with focus.
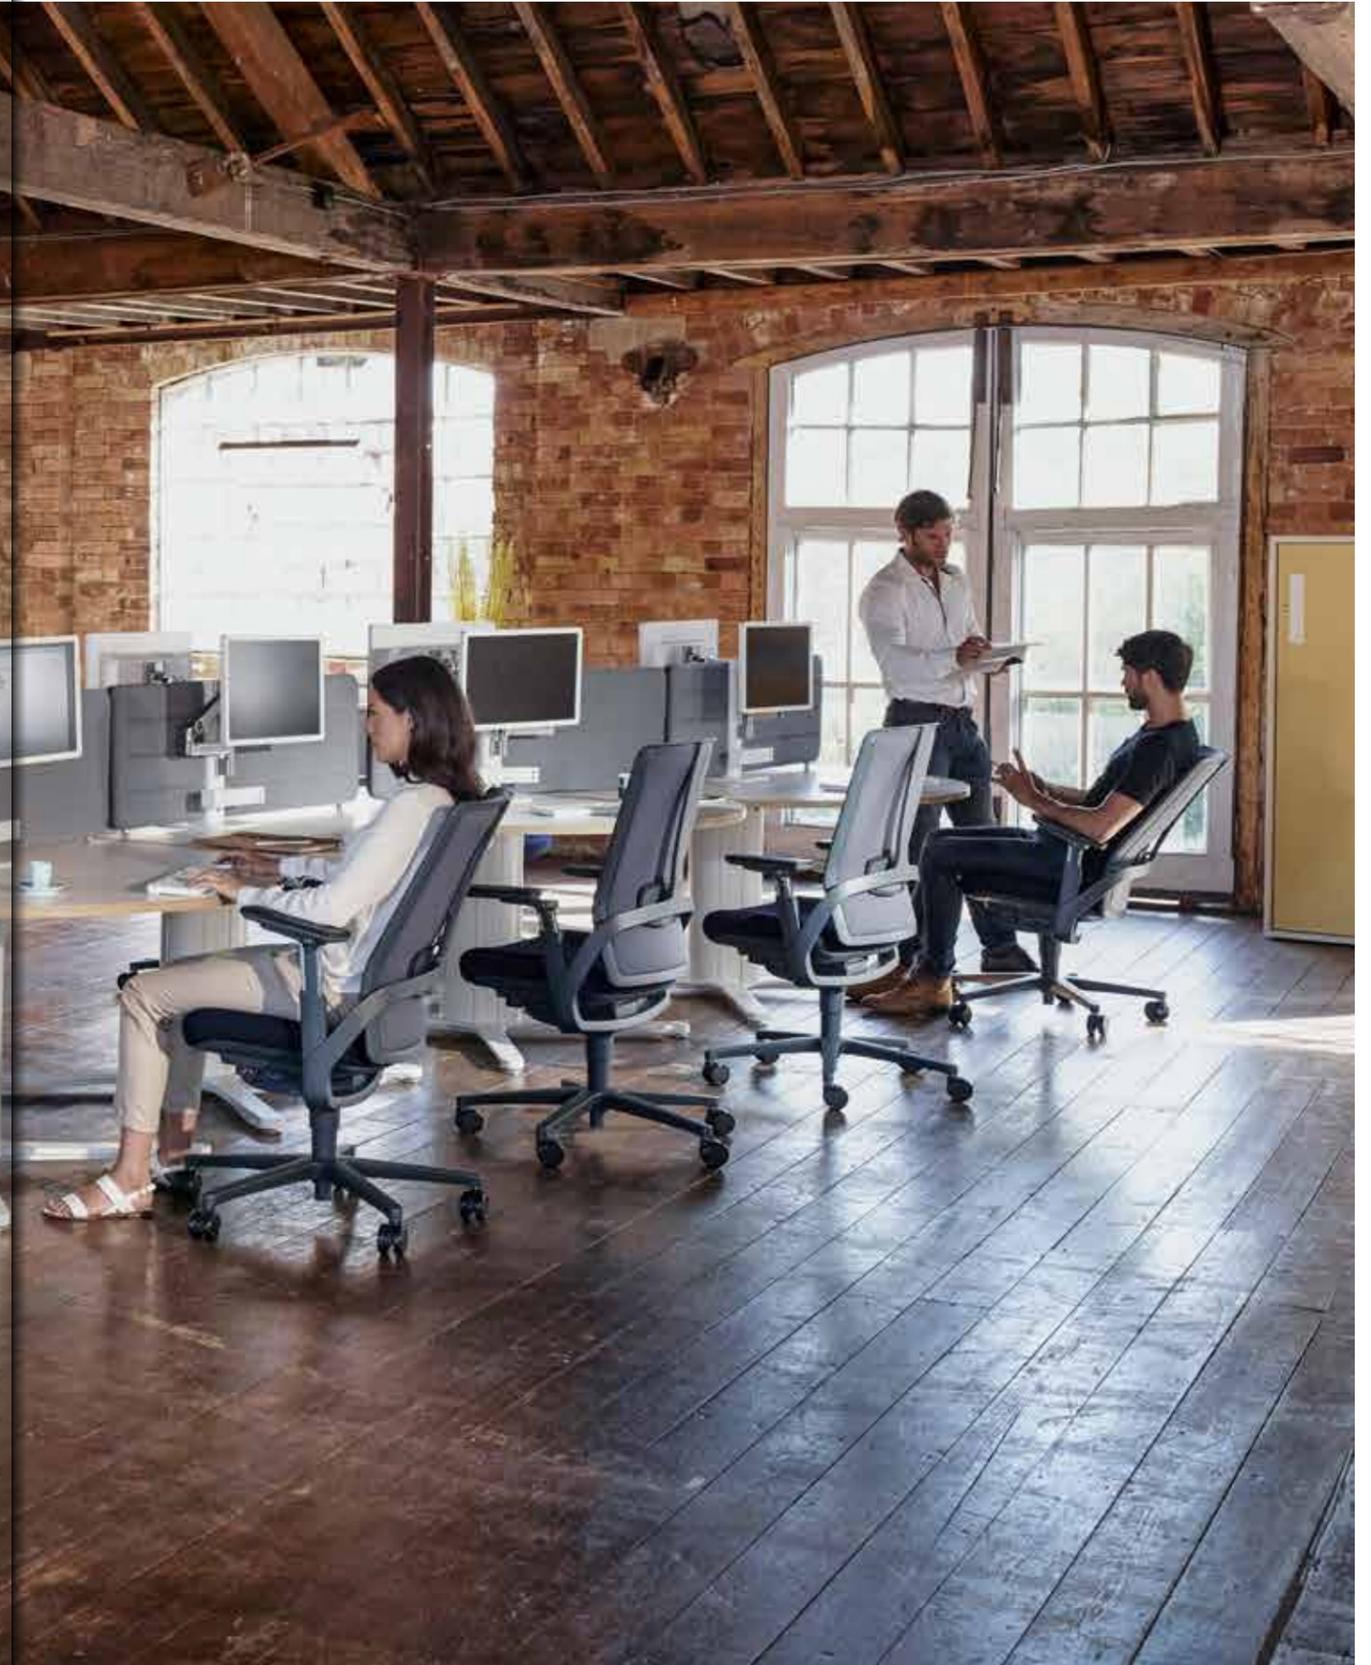

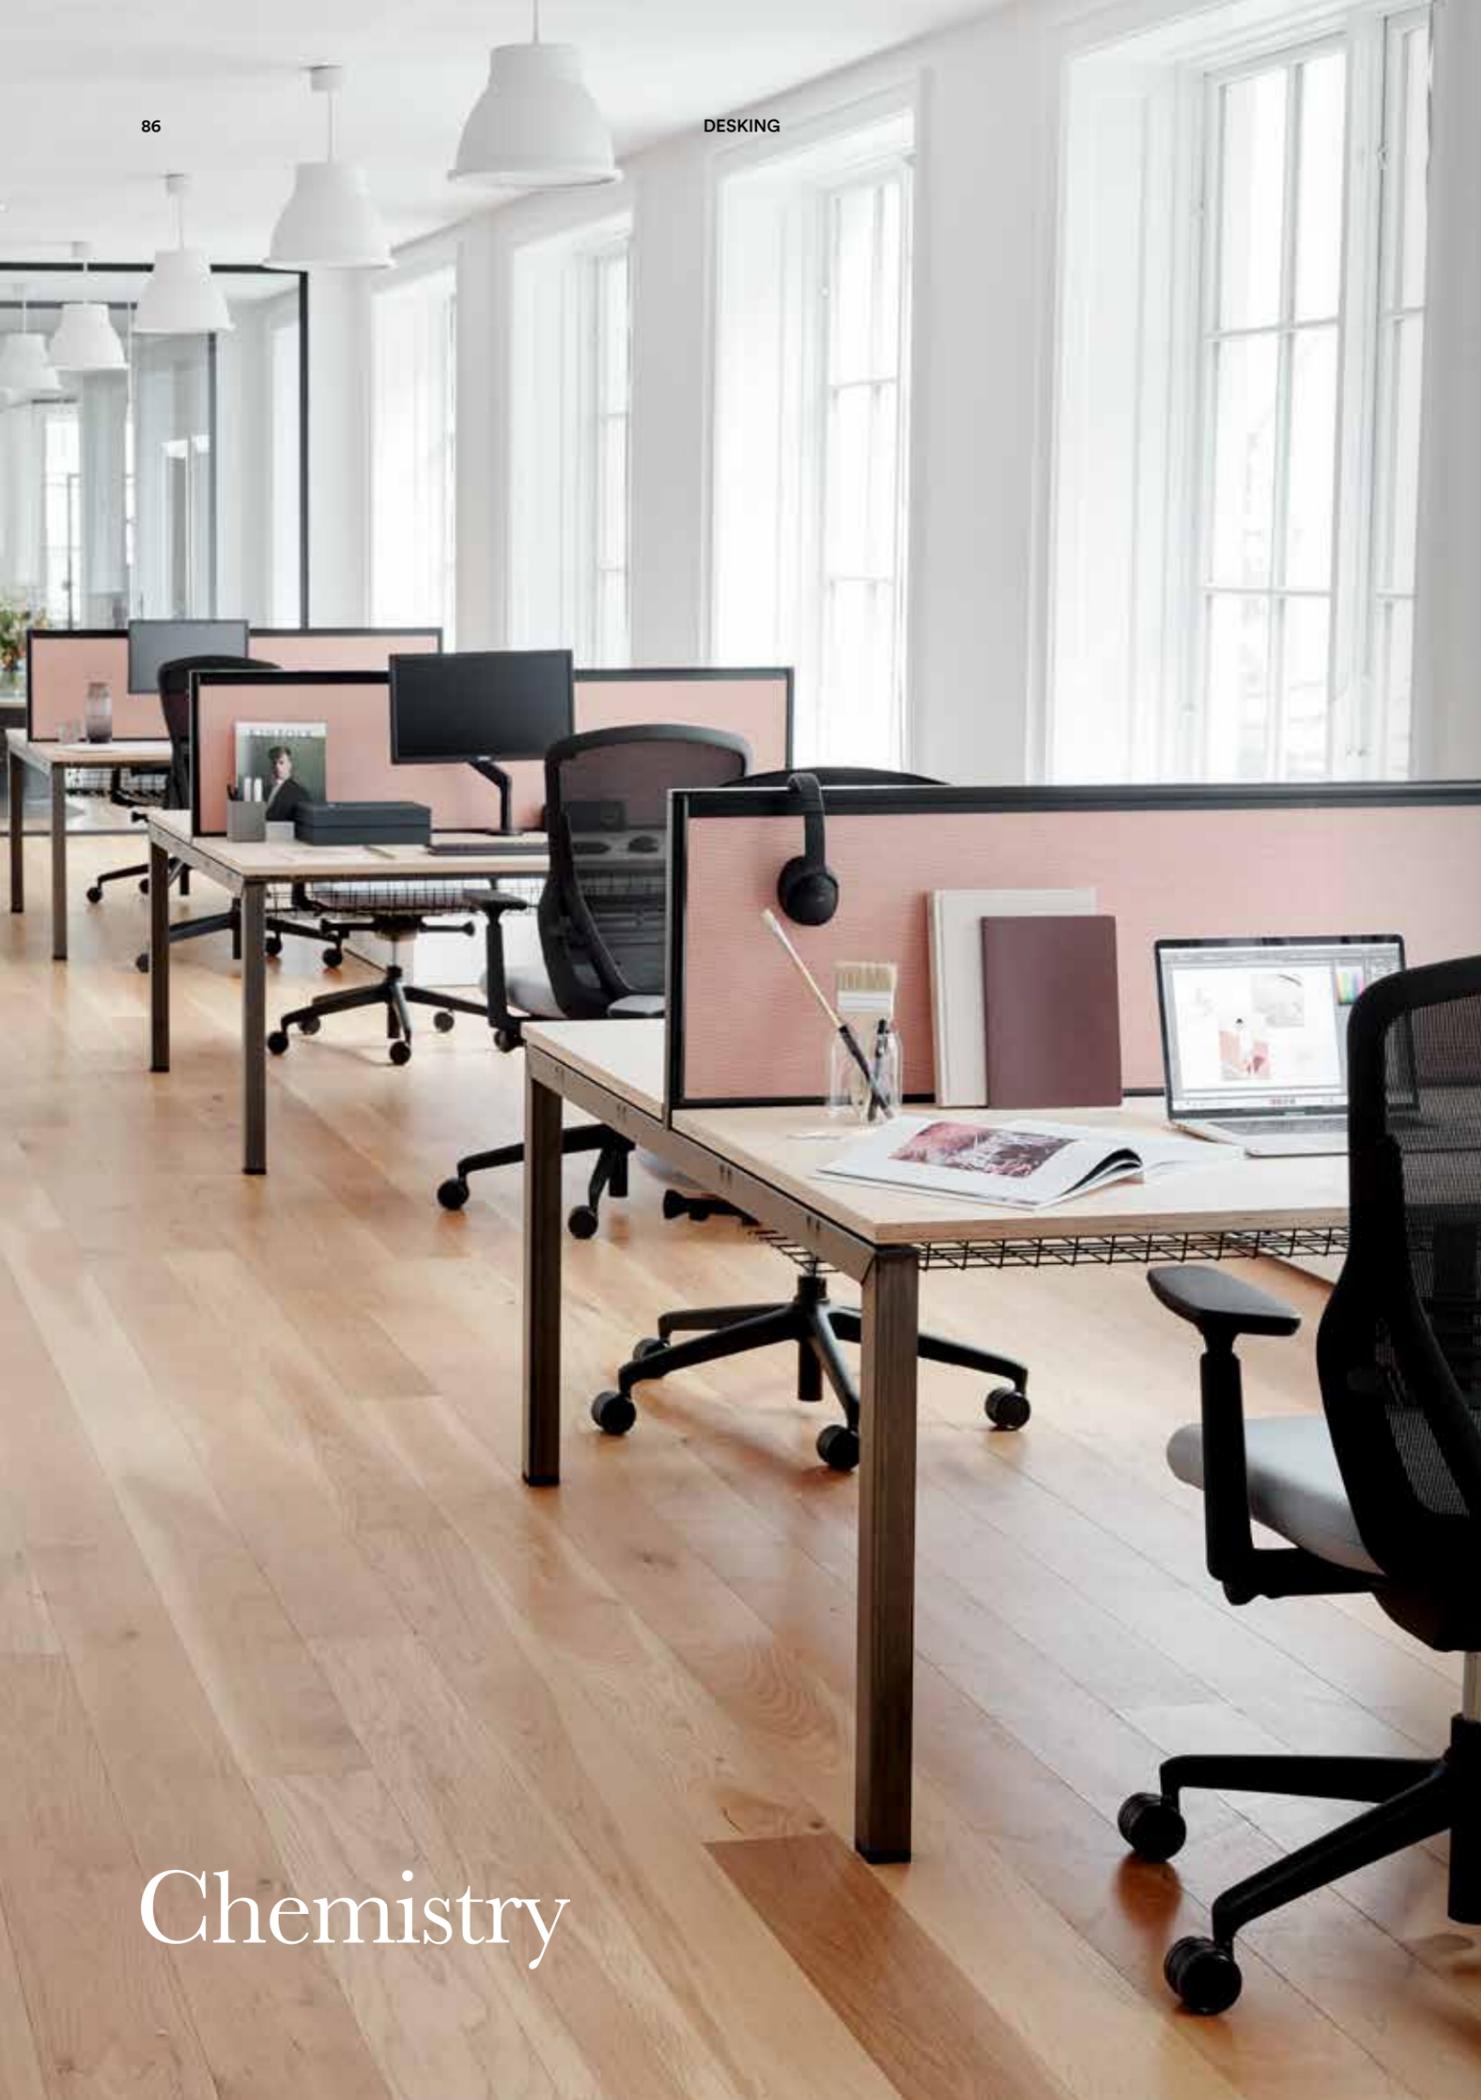

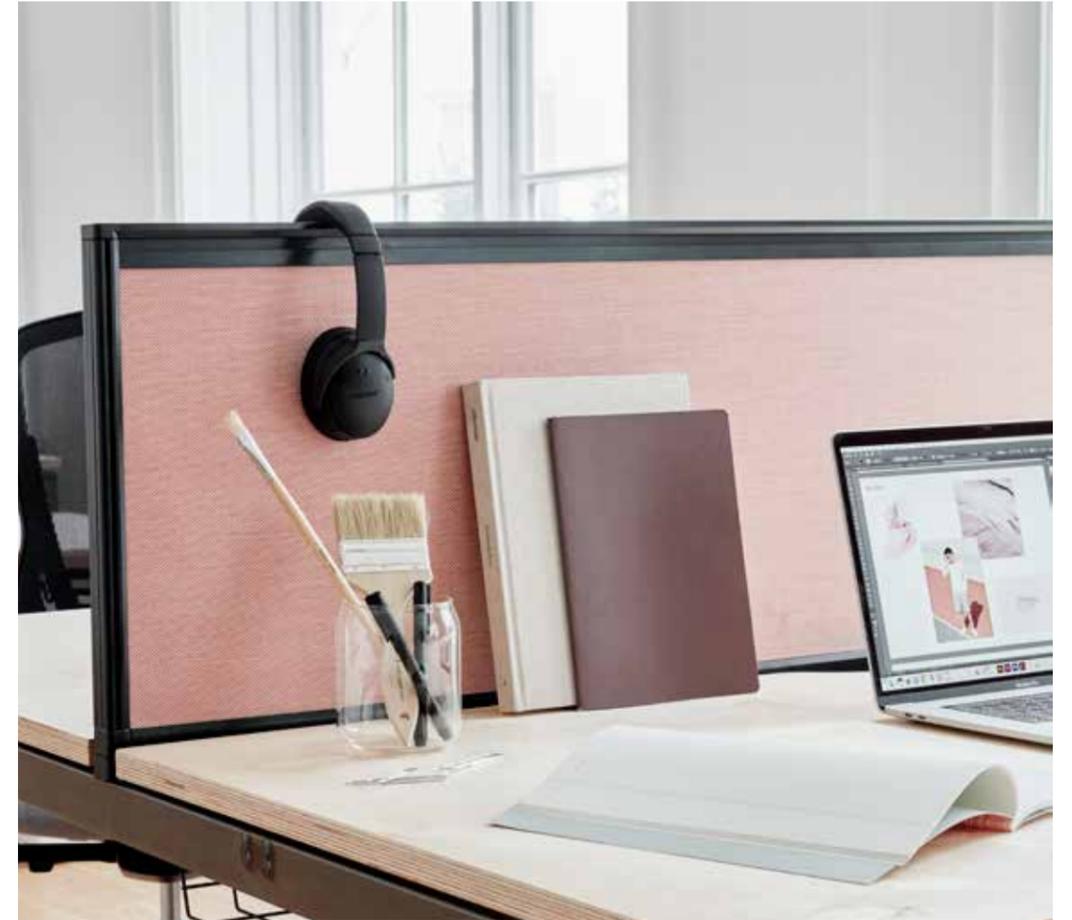

MODERN ENVIRONMENT

The Chemistry range of workstations has been developed for modern working environments. Chemistry creates a stylish yet flexible solution that improves productivity and facilitates diversity for individuals and teams.

Chemistry Workstations can be configured as individual desks or as bench solutions that share components, allowing for the integration of partitions that form touch down workstations or meeting spaces.

The range incorporates two leg styles and the ability to integrate sliding tops for ease of access to integrated cable management.

Chemistry

Chemistry

The Chemistry range of workstations have been developed for modern working and learning environments. Chemistry creates a stylish yet flexible solution which improves productivity and facilitates diversity for individuals and teams.
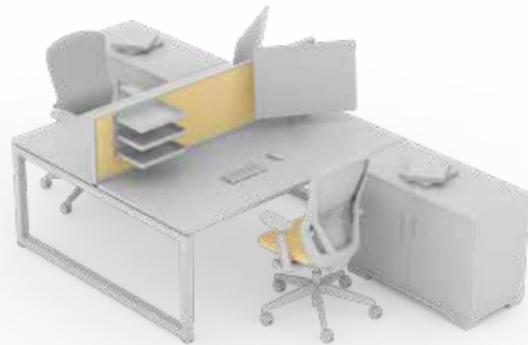

EXAMPLE CONFIGURATION
This two person bank of desks is an ideal supervisory workspace for an open plan office or library. Set away from the main clusters with plenty of personal storage for filing and screens for focus.

EXAMPLE CONFIGURATION
Private offices can also be flexible spaces, the addition of a seating area allows quick meetings to take place if required. In the absence of the occupant another manager may make use of the space.
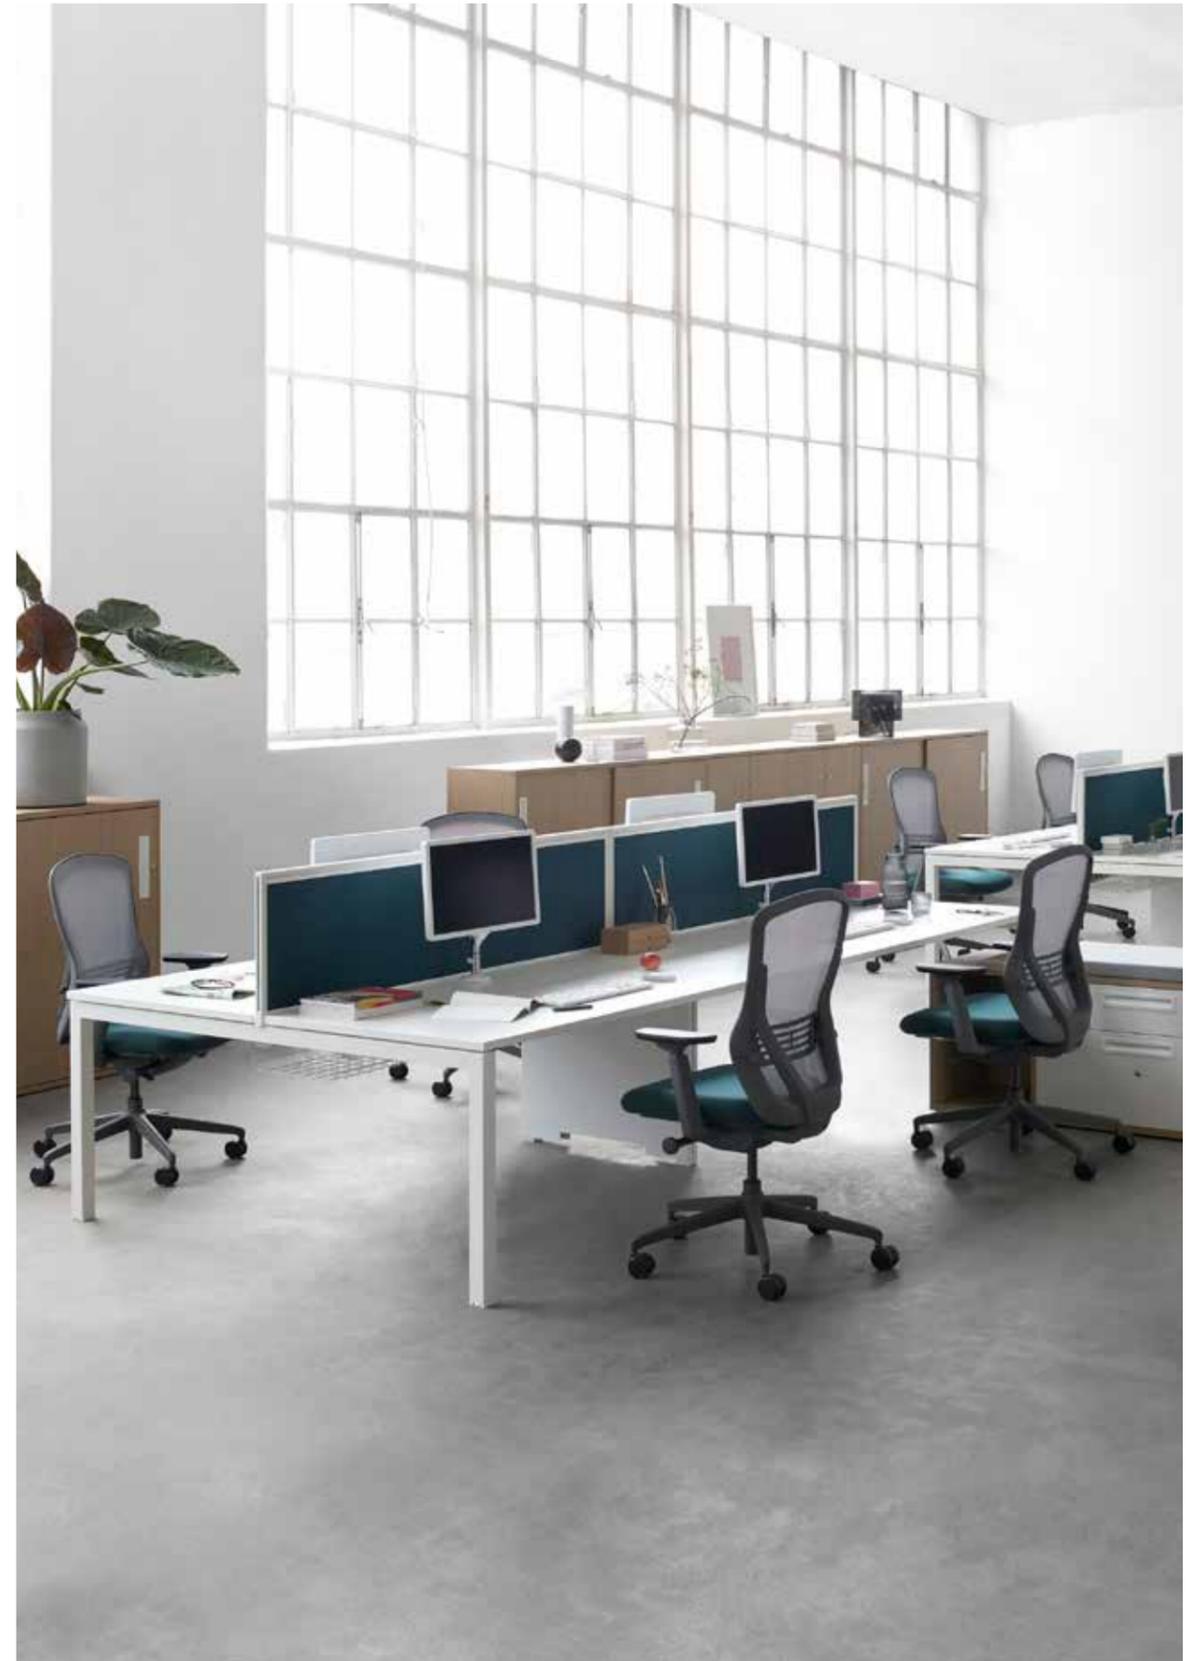

Chemistry

Chemistry Meeting Tables share the same frame as Chemistry Workstations for a consistent design aesthetic. Options for in desk power and cable management provide practical features.

EXAMPLE CONFIGURATION

In touch down areas, communal storage can be used as a place to hold personal belongings temporarily as well as resources that are less frequently accessed.

EXAMPLE CONFIGURATION

A flexible space that supports all types of nomadic workers, this split workstation allows users to either work from a laptop or log on and connect through a fixed computer.
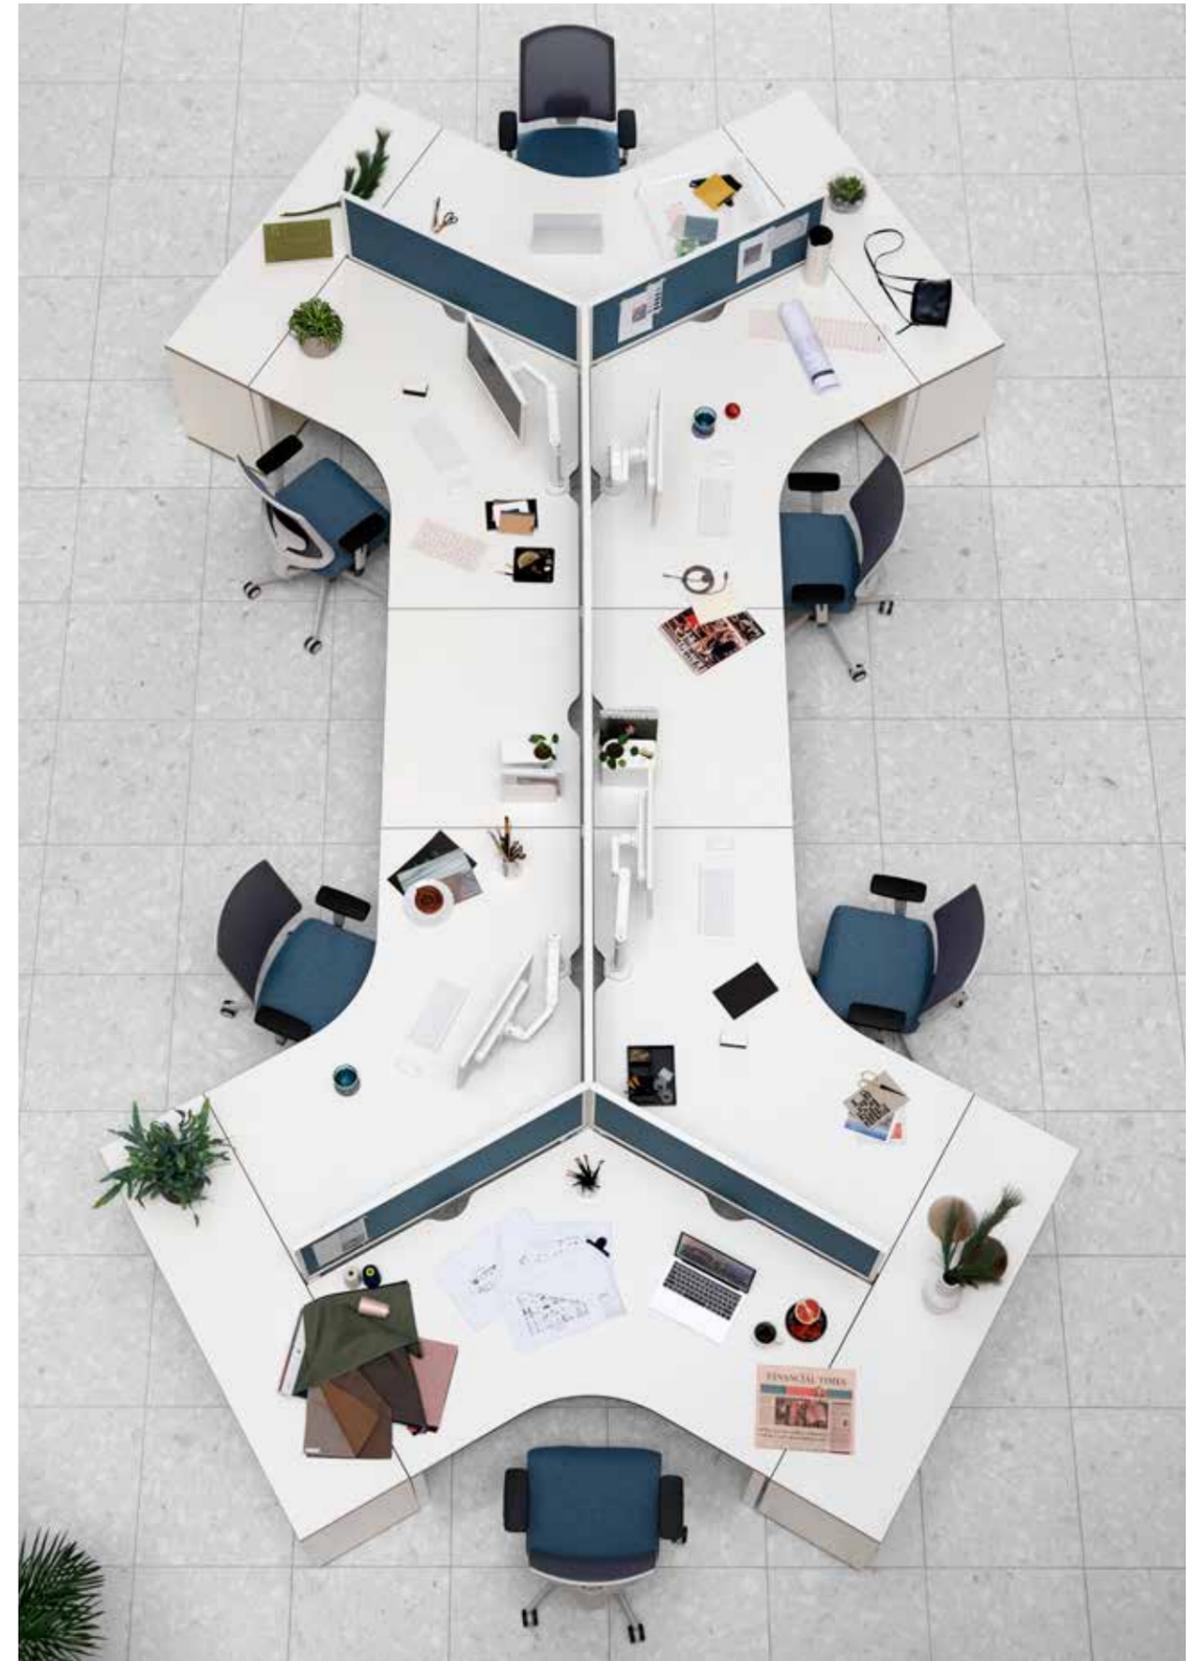

Chemistry
Height Adjustable

REACHING NEW HEIGHTS

Height adjustable desks have been widely recognised as an aid to employee wellbeing and productivity. Chemistry workstations designed to fully interact with the user, whether that be seated or standing, height adjustable desks permit the user to quickly set their optimum working height by means of a manual adjustment or responsive push button electronic mechanism.

Chemistry

Chemistry features a back to back height adjustable bench leg option that allows the user to quickly set their optimum working height by means of a responsive manual adjustment or via a push button electronic mechanism.

EXAMPLE CONFIGURATION
Height adjustable desking can be beneficial as studies have shown a change in posture can aid concentration. Pull out storage can also offer additional privacy in an area like this.

EXAMPLE CONFIGURATION
Height adjustable workstations create an area that supports laptop users and can be easily adjusted to suit individual preferences, ideal for those using the space for a short period of time.

Chemistry

Chemistry incorporates a height adjustable workstation solution allowing the user the option to vary their posture and stand whilst working.

EXAMPLE CONFIGURATION
A combination of height adjustable desking and meeting tables is an ideal set-up for open spaces, where a range of postural requirements need to be catered for.

EXAMPLE CONFIGURATION
Single height adjustable desks can create inline set ups, where space requirements may be narrow or limited.
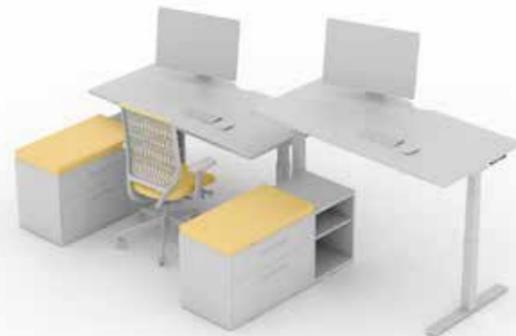

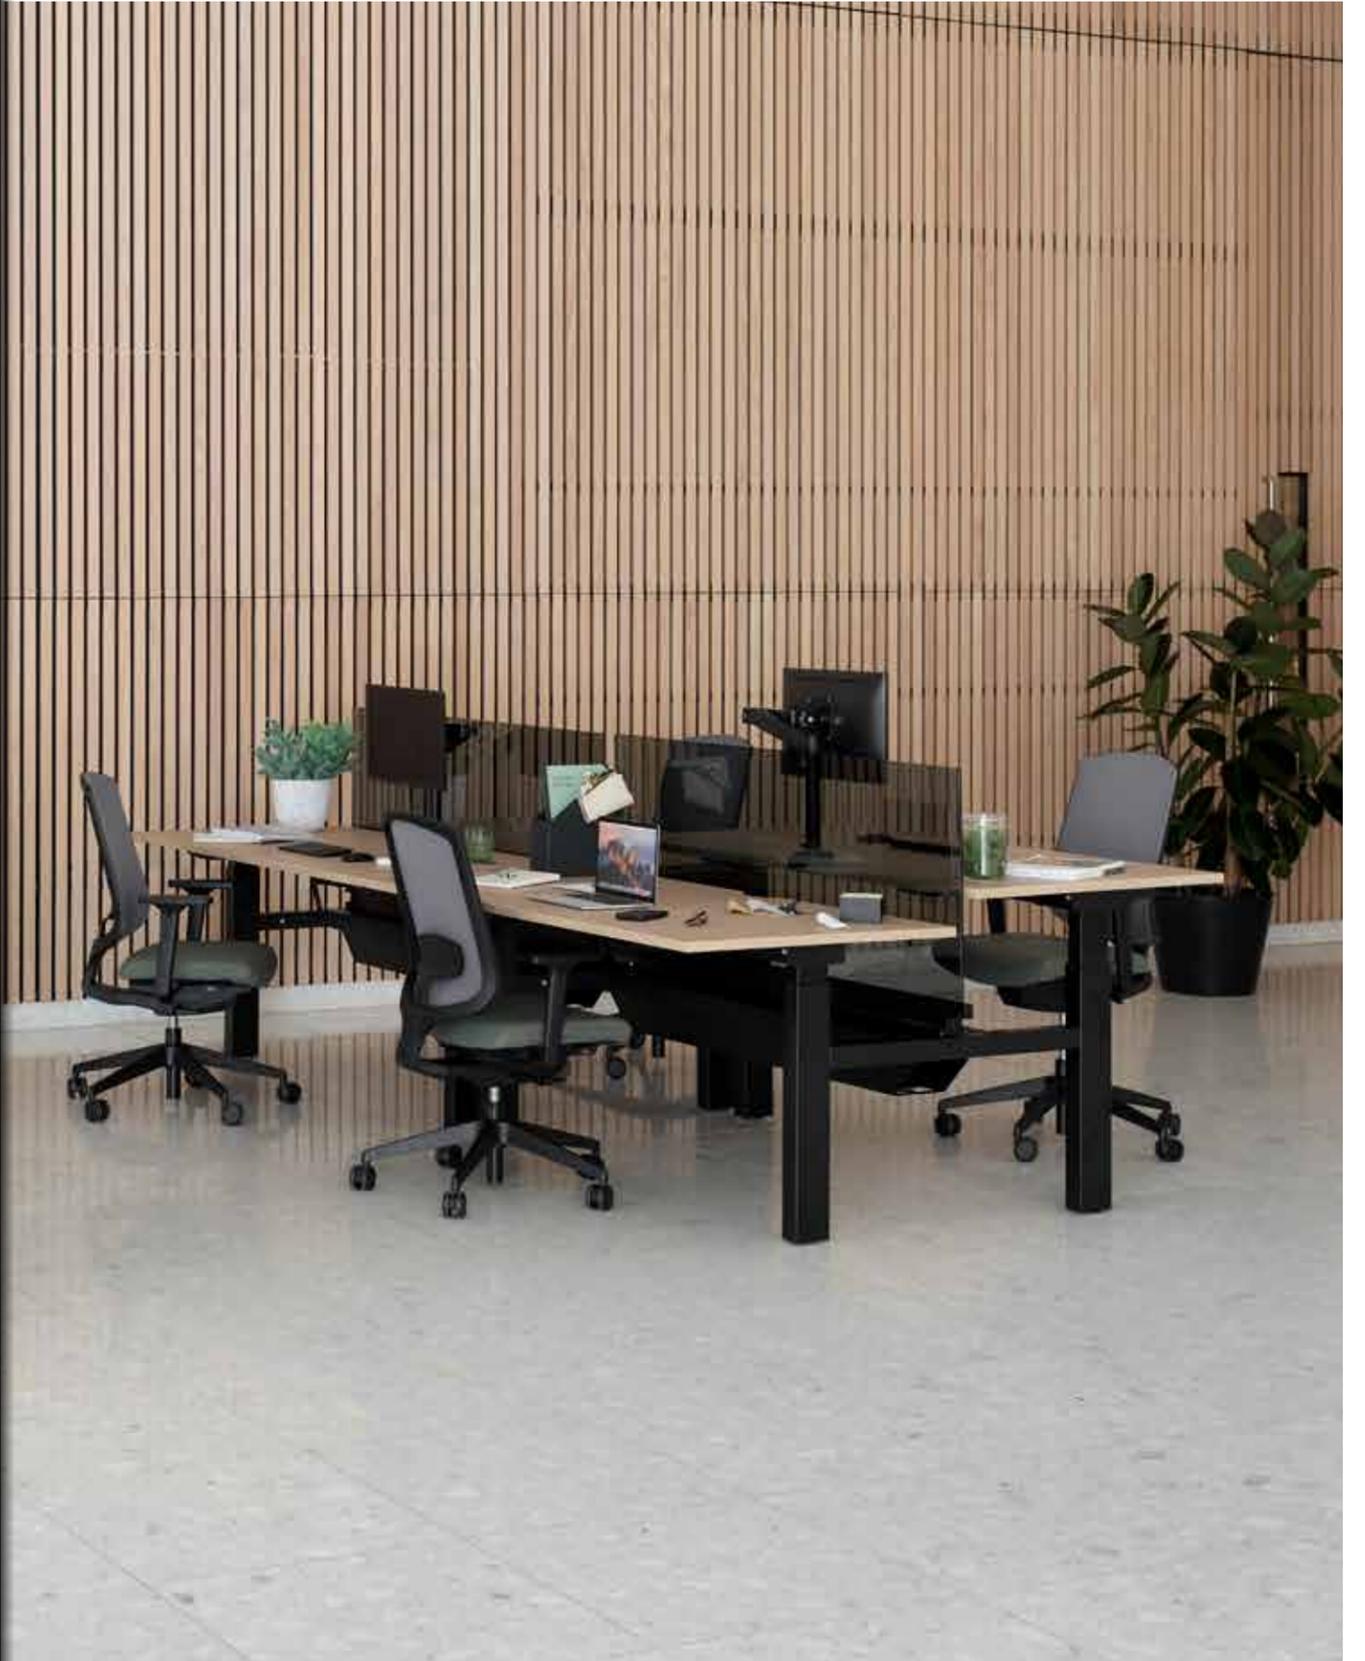

Canopy

UNDER COVER

A complement to Chemistry desking, Canopy's fabric covered panels with optional tech knit pockets can be used to pin and store inspirational materials. A magnetic dry wipe board both inside and outside makes clever use of the space.

Chemistry Canopy encourages and supports both times of concentration and of private conversation. Great consideration was given to the acoustic properties of Canopy, offered in a selection of acoustically tested fabrics to assist with the levels of reverberation. Ensuring noise levels are minimised for both an individual sitting alone, or for a colleague of co-worker to work alongside during ad-hoc meetings, without distraction to others.

Crossover

Crossover is based around a pair of horizontal beams which provide a robust structure and a continuous fixing method for all furniture elements. Legs, screens, wire management, work surfaces and accessories can be attached at any point along the beams regardless of desk module.

EXAMPLE CONFIGURATION

Private offices can also be flexible spaces, the addition of a desk return allows quick meetings to take place if required. In the absence of the occupant another manager may make use of the space.

EXAMPLE CONFIGURATION

A six person cluster with some personal storage is one of the most typical set ups found in open plan offices. With only a small amount of screening there is not too much division between colleagues, encouraging some social interaction.

Core

Core is a versatile desk system with a fresh, clean aesthetic based around a horizontal beam construction, which provides structure and rigidity and allows for the fixing of the various system elements. The flexibility designed into the system allows Core to provide a comprehensive range of different applications.

EXAMPLE CONFIGURATION

This two person bank of desks is an ideal supervisory workspace for an open plan office. Set away from the main clusters with personal storage for filing of confidential information and screens for focus.

EXAMPLE CONFIGURATION

A four person cluster with some personal storage is often found in open plan working environments. Screening helps to manage acoustics without disrupting communication and collaboration.

Jigsaw

Jigsaw is designed to provide a truly flexible cost effective solution for any office application or task. Key to the system is the rigid beam which allows almost limitless shared configurations and extremely simple installation.

EXAMPLE CONFIGURATION

This two person bank of desks is an ideal supervisory workspace for an open plan office. Set away from the main clusters with personal storage for filing of confidential information and screens for focus.

EXAMPLE CONFIGURATION

This three person configuration provides an alternative and interesting layout for employees based at a desk for long periods of time. The use of screens and personal storage creates individual 'me' space.
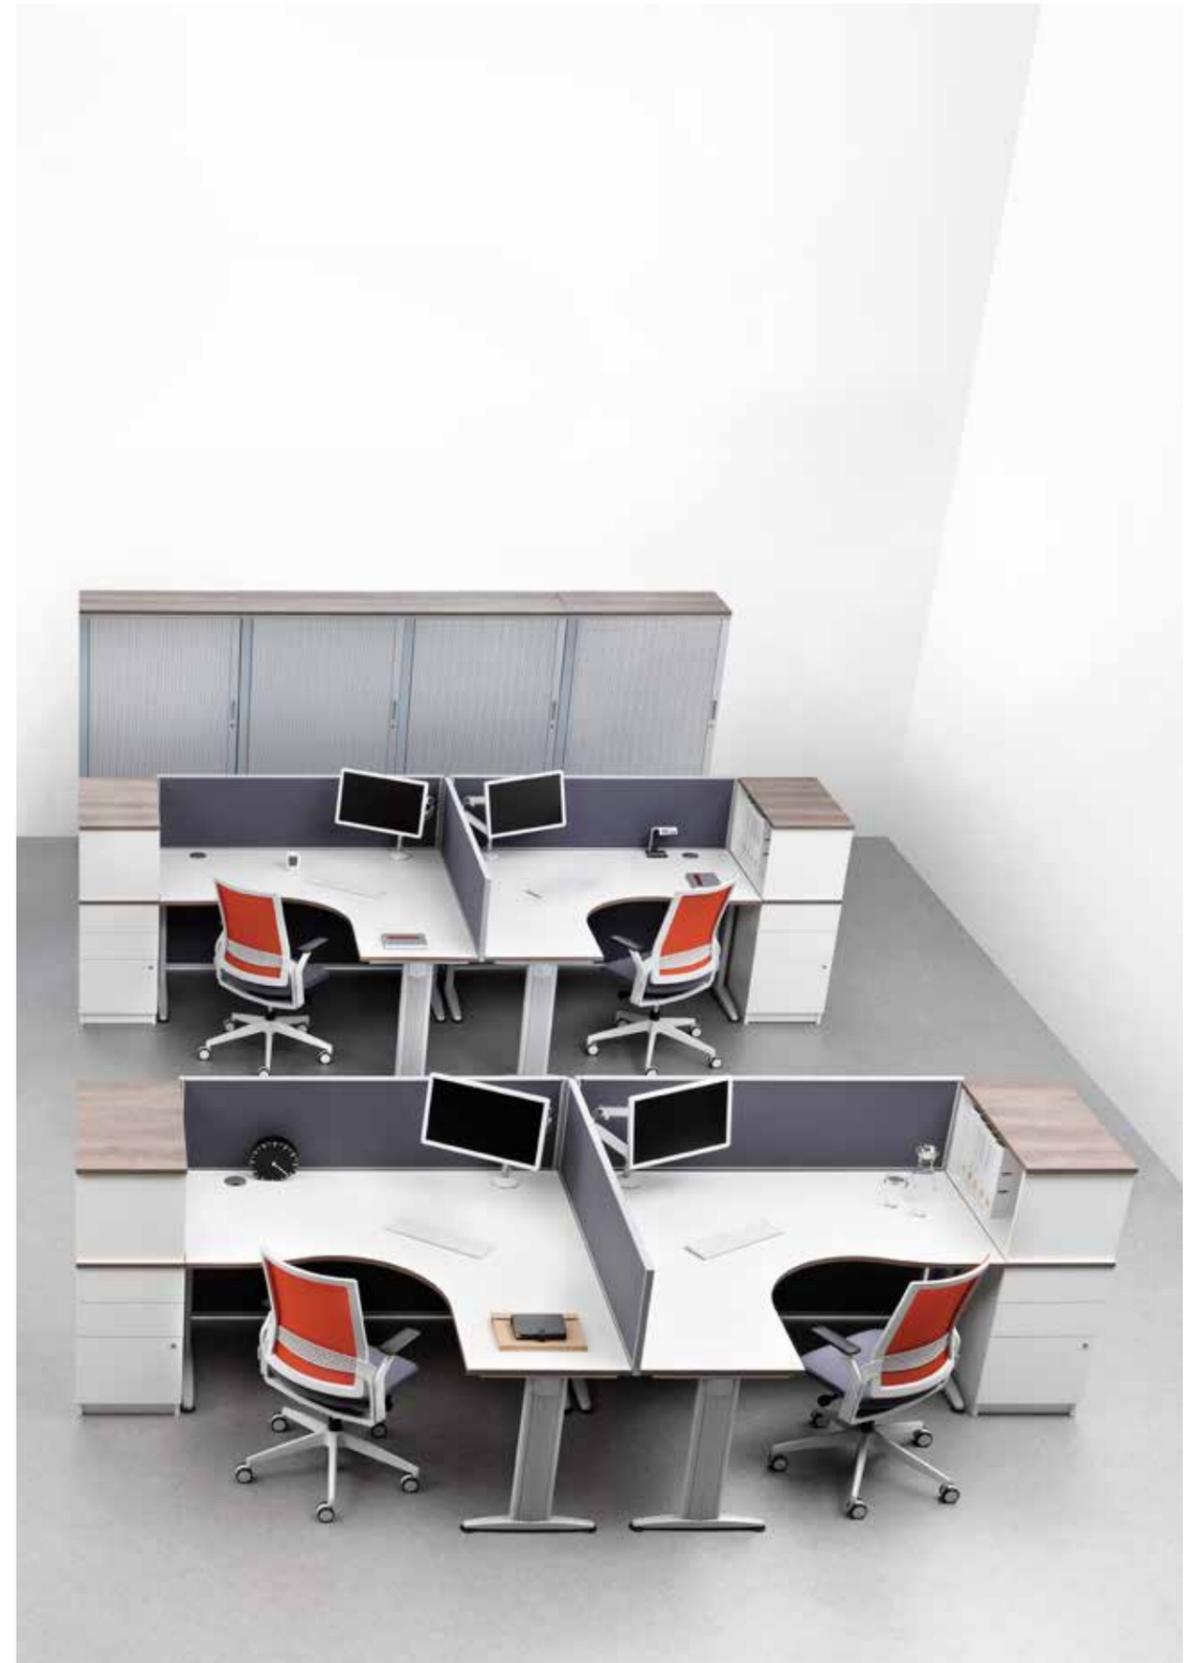

Storage

Storage has become more than just a place to store paperwork or keep personal effects, it has become a method of creating division within a space. Developed in a different way to the traditional filing systems, our storage collection responds to the changing requirements of storage systems and privacy needs.
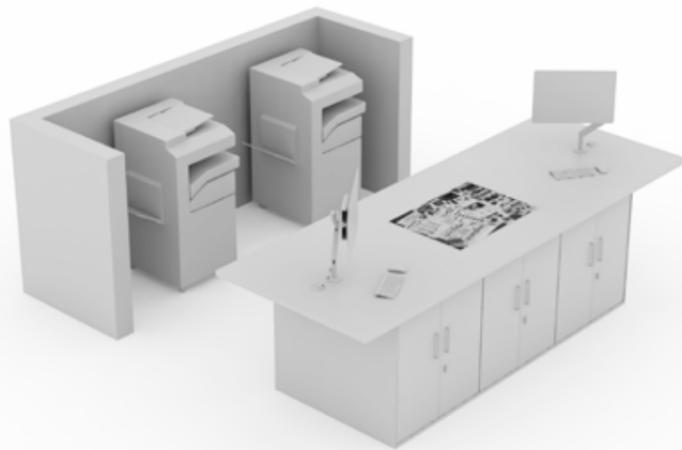

EXAMPLE CONFIGURATION

The printer area is an essential part of the office that can often cause distraction. By creating a central hub it gives a cleaner aesthetic to the office that can also act as an acoustic aid. By adding a shared work table and storage for resources, the area has become more functional.

EXAMPLE CONFIGURATION

The back of storage in communal areas should not be overlooked, it divides the space well and by adding fabric or whiteboard panels it can be used be in meetings or for pinning ideas up.
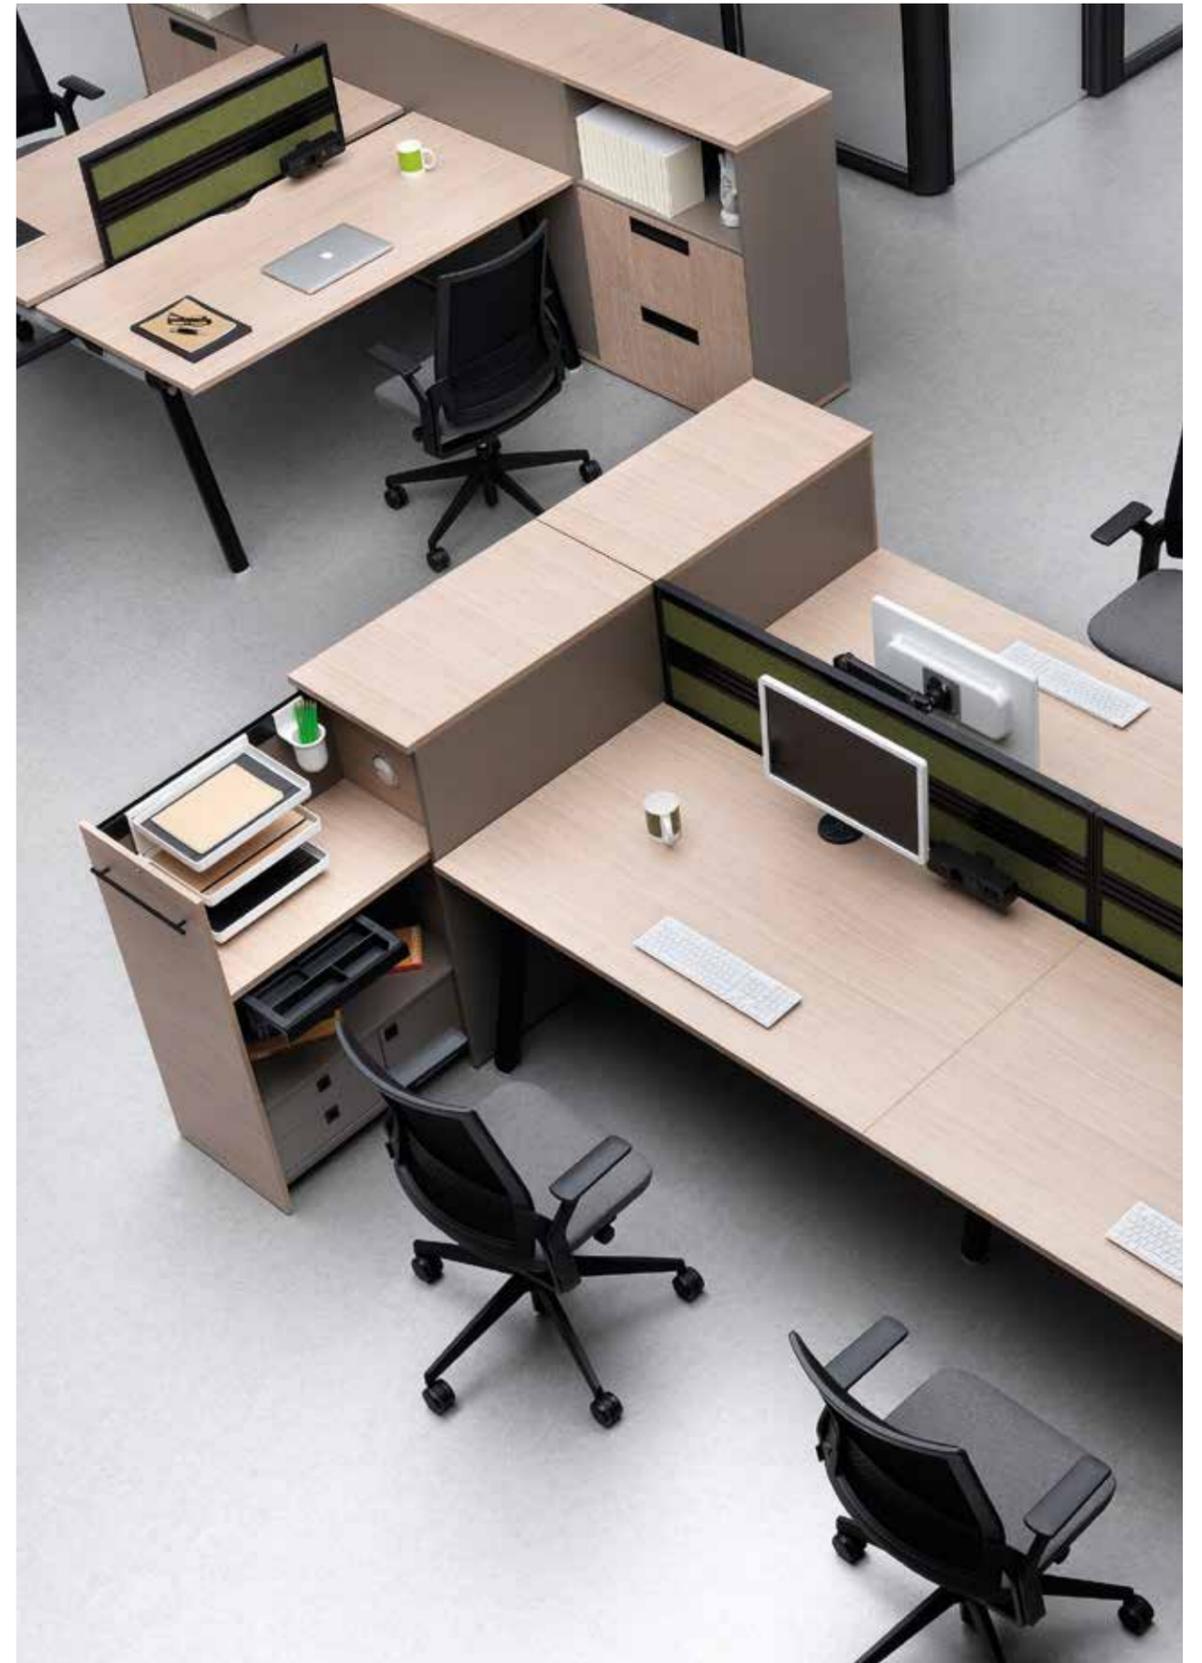

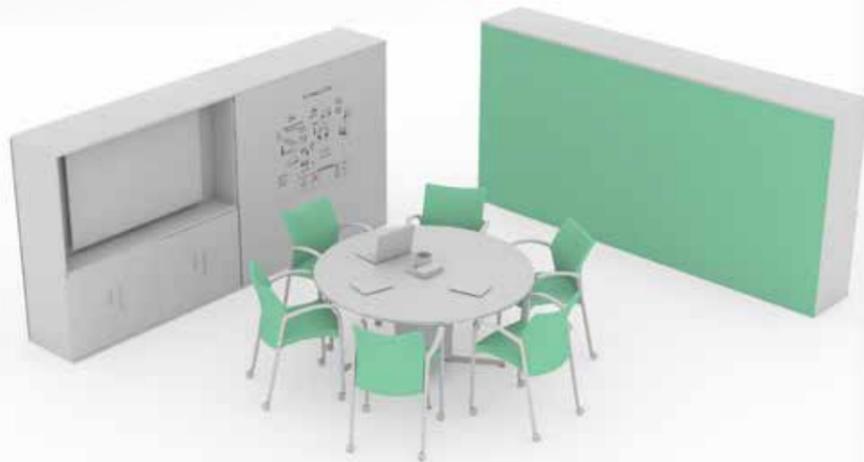

Storage

Senator Storage supports a wide range of resources that is complementary to the design of any space. Open shelves, flipper units, pull-out towers and filing cabinets are just a few products in a vast selection of units available that vary in size and function.

EXAMPLE CONFIGURATION

A storage wall is a good way to partition the space in reception and waiting areas, the display or library area can be used to decorate the space and the shared storage can be easily accessed.
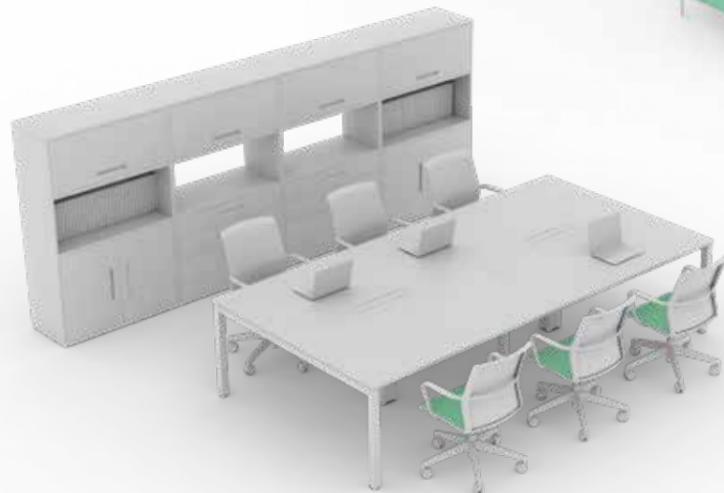

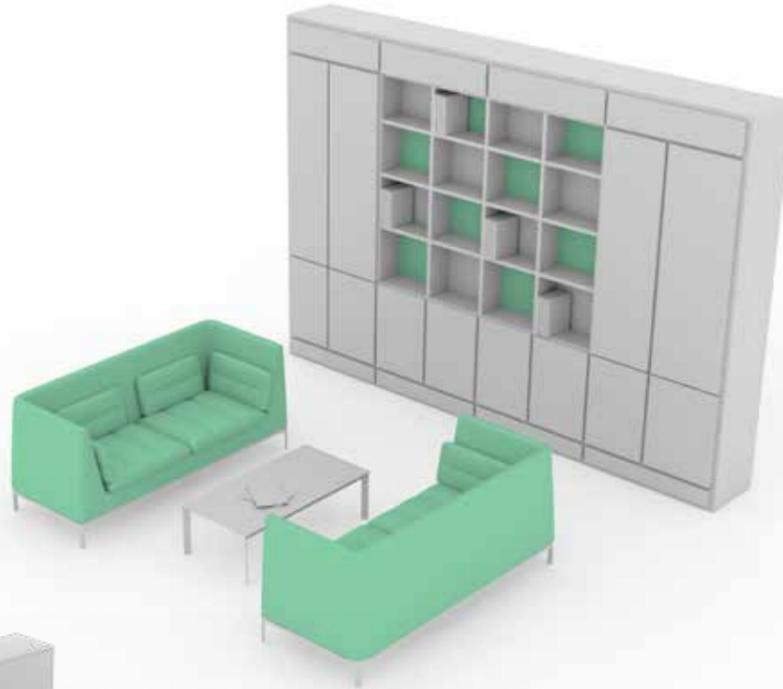

EXAMPLE CONFIGURATION

In hot desking areas, communal storage can be used as a place to hold personal belongings temporarily as well as resources that are less frequently accessed.

Storage & Screens

With a variety of sizes, product options and finishes available, Universal Storage is a perfect complement to our full range of workplace solutions. Screens can be freestanding or mounted to workstations to enable personal privacy.

EXAMPLE CONFIGURATION

Pull out storage is a good way to stow away personal items conveniently as well as for keeping reference material close by and off the desk area. When pulled out this storage can also provide a screening function.

EXAMPLE CONFIGURATION

Sliding door storage is often used if a business is paper heavy and requires more files than would be possible in a pedestal to be kept close to hand for reference purposes.
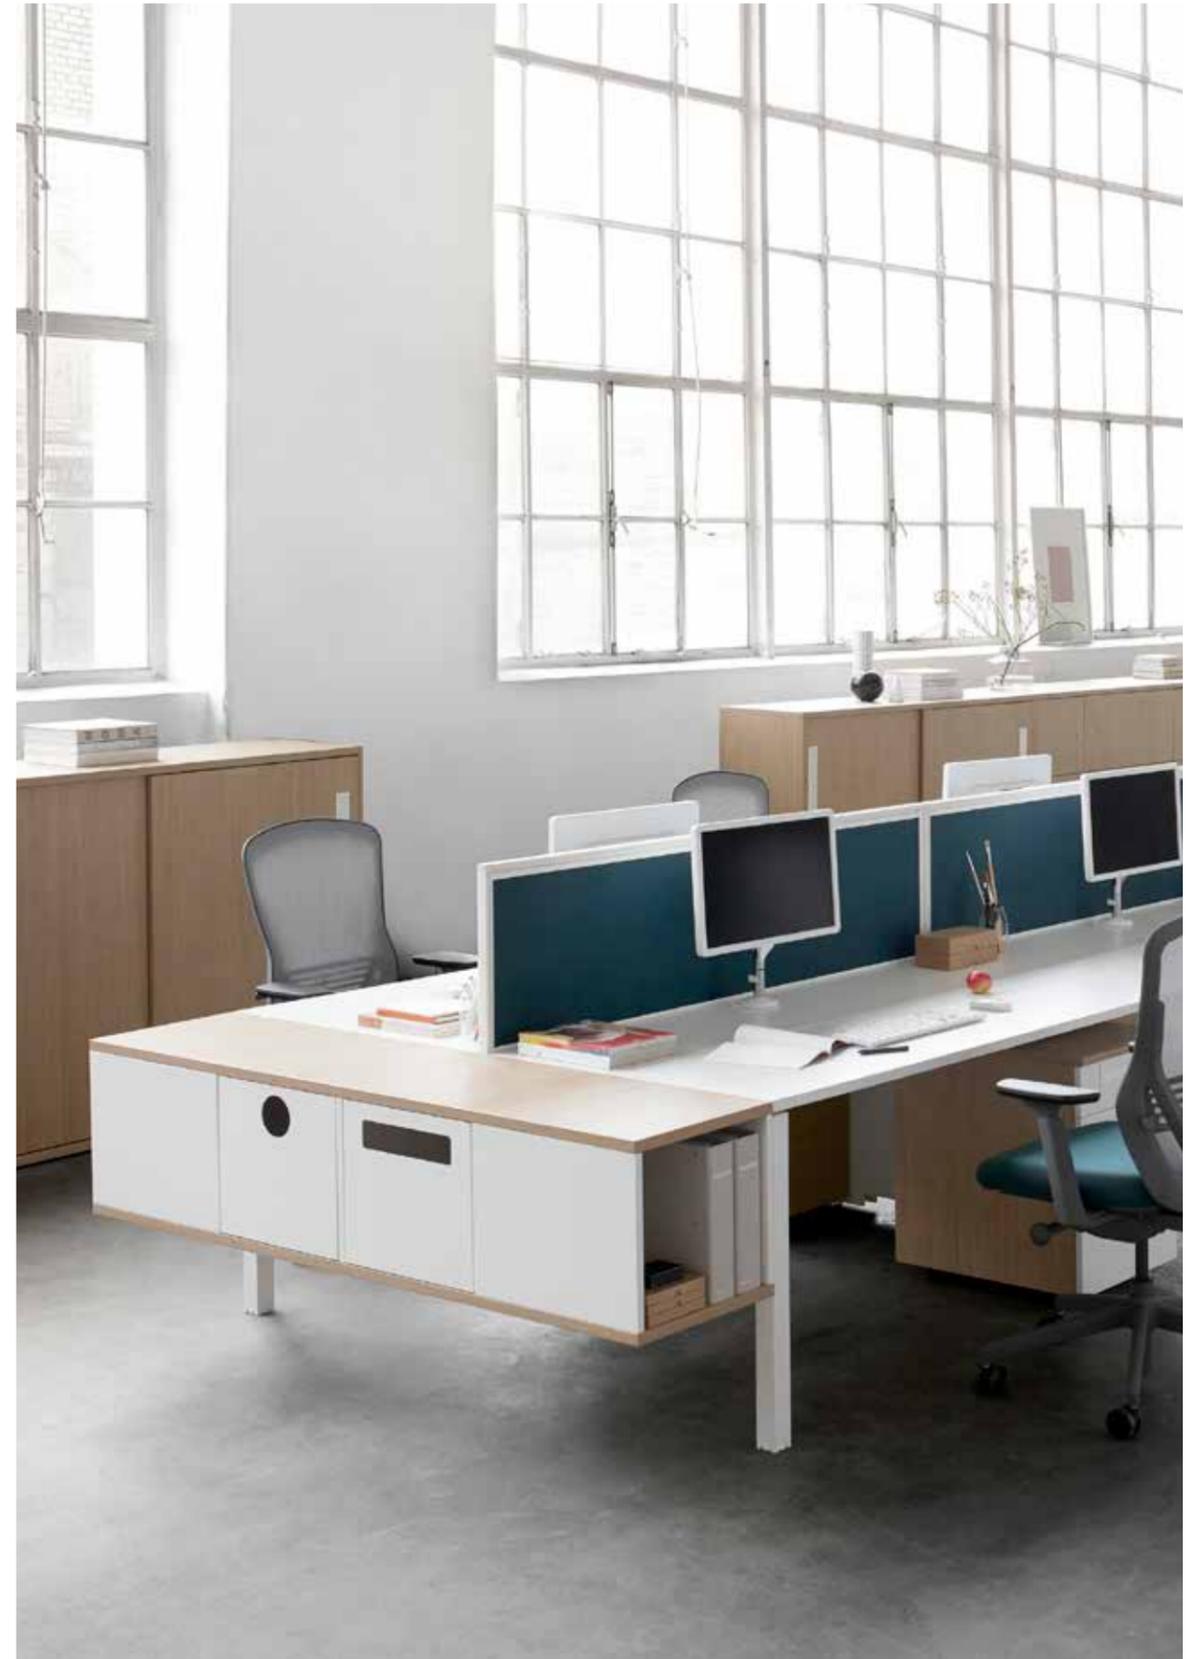

Mote

Mote

Mote has been designed to provide a holistic solution when designing dynamic environments. Created as a complete lounge seating range, no detail is an afterthought, with every inch having been given careful consideration to eliminate dead space.

MOTE SHARE

Mote's holistic approach to designing dynamic environments lends itself perfectly to creating a space to share ideas and source new ones. This configuration, along with its acoustic properties offers an informal classroom, meeting or presenting space that's protected from the surrounding space.

EXAMPLE CONFIGURATION

The Mote Sofa Systems offer the perfect space to break away from the office, host guests in an informal setting or offer an informal work space. In offices with space considerations, additional, power connected work stations can be installed at the back, making furniture work harder and smarter for demanding environments.
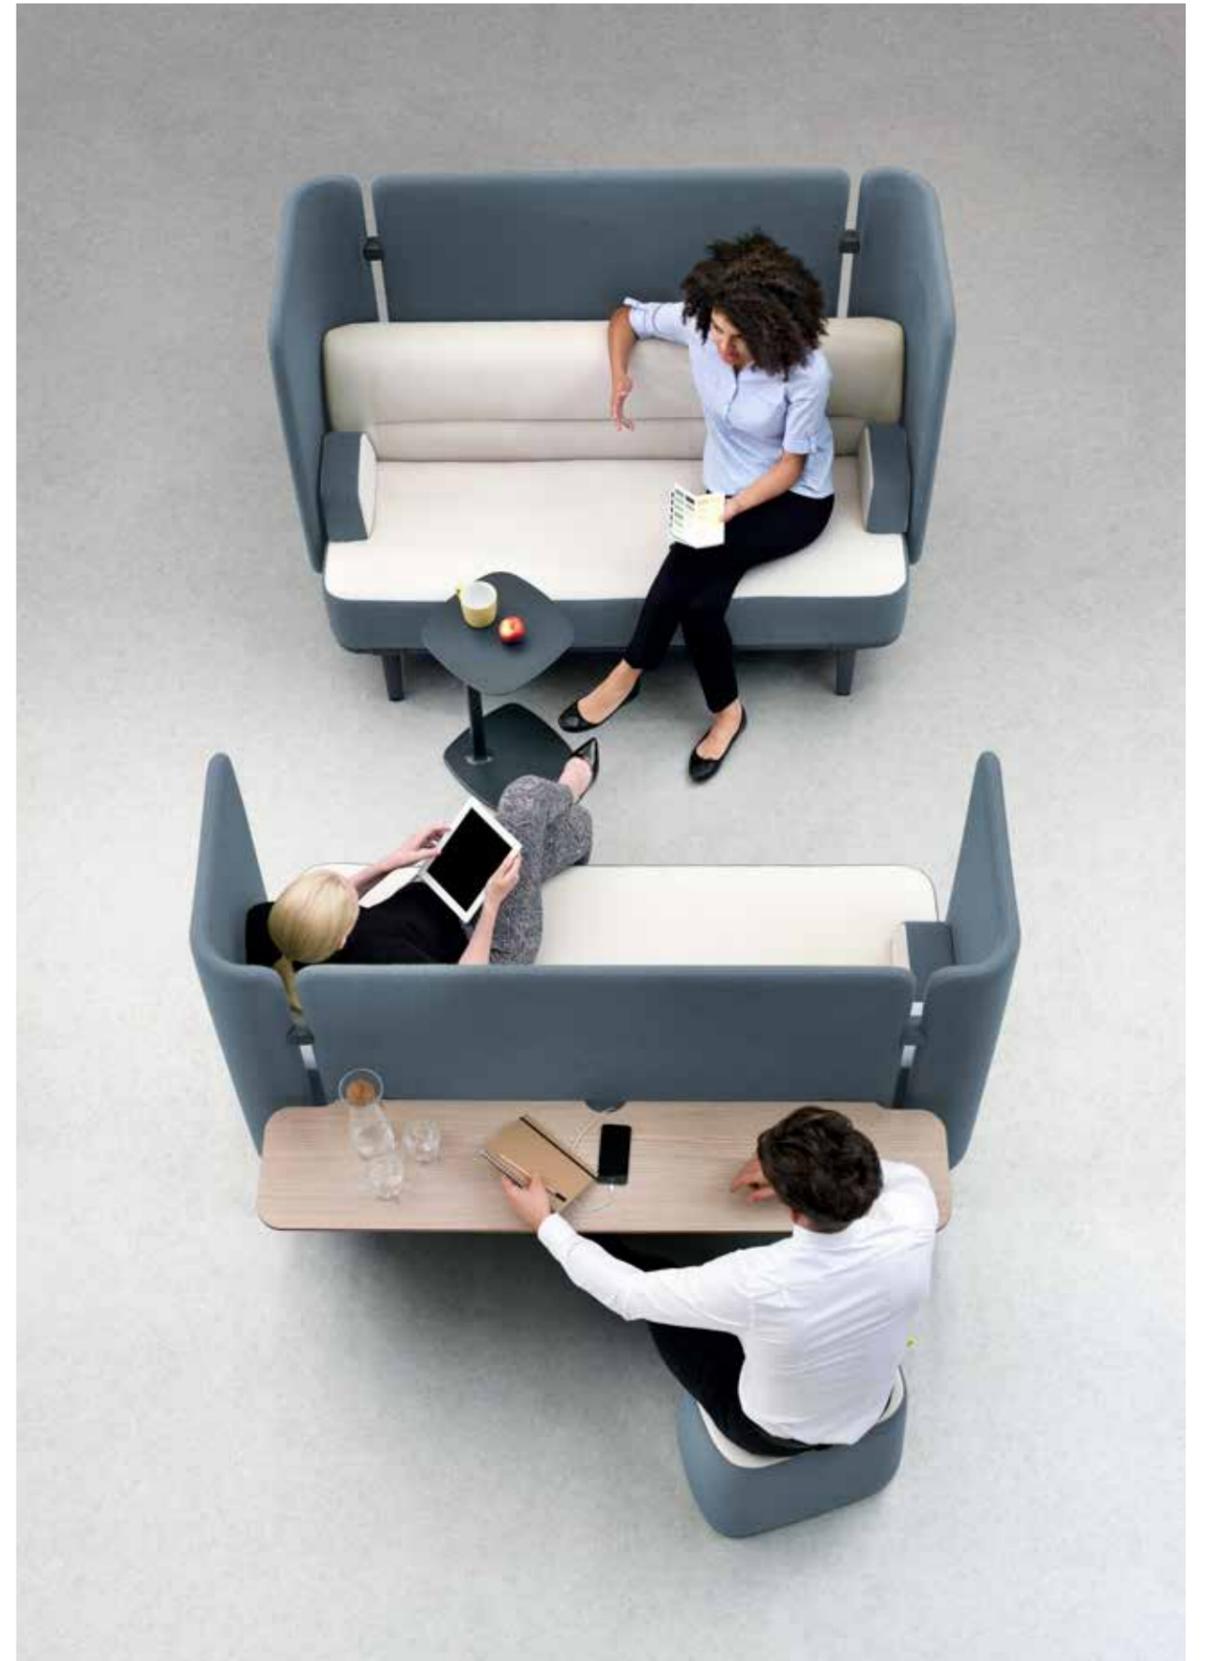

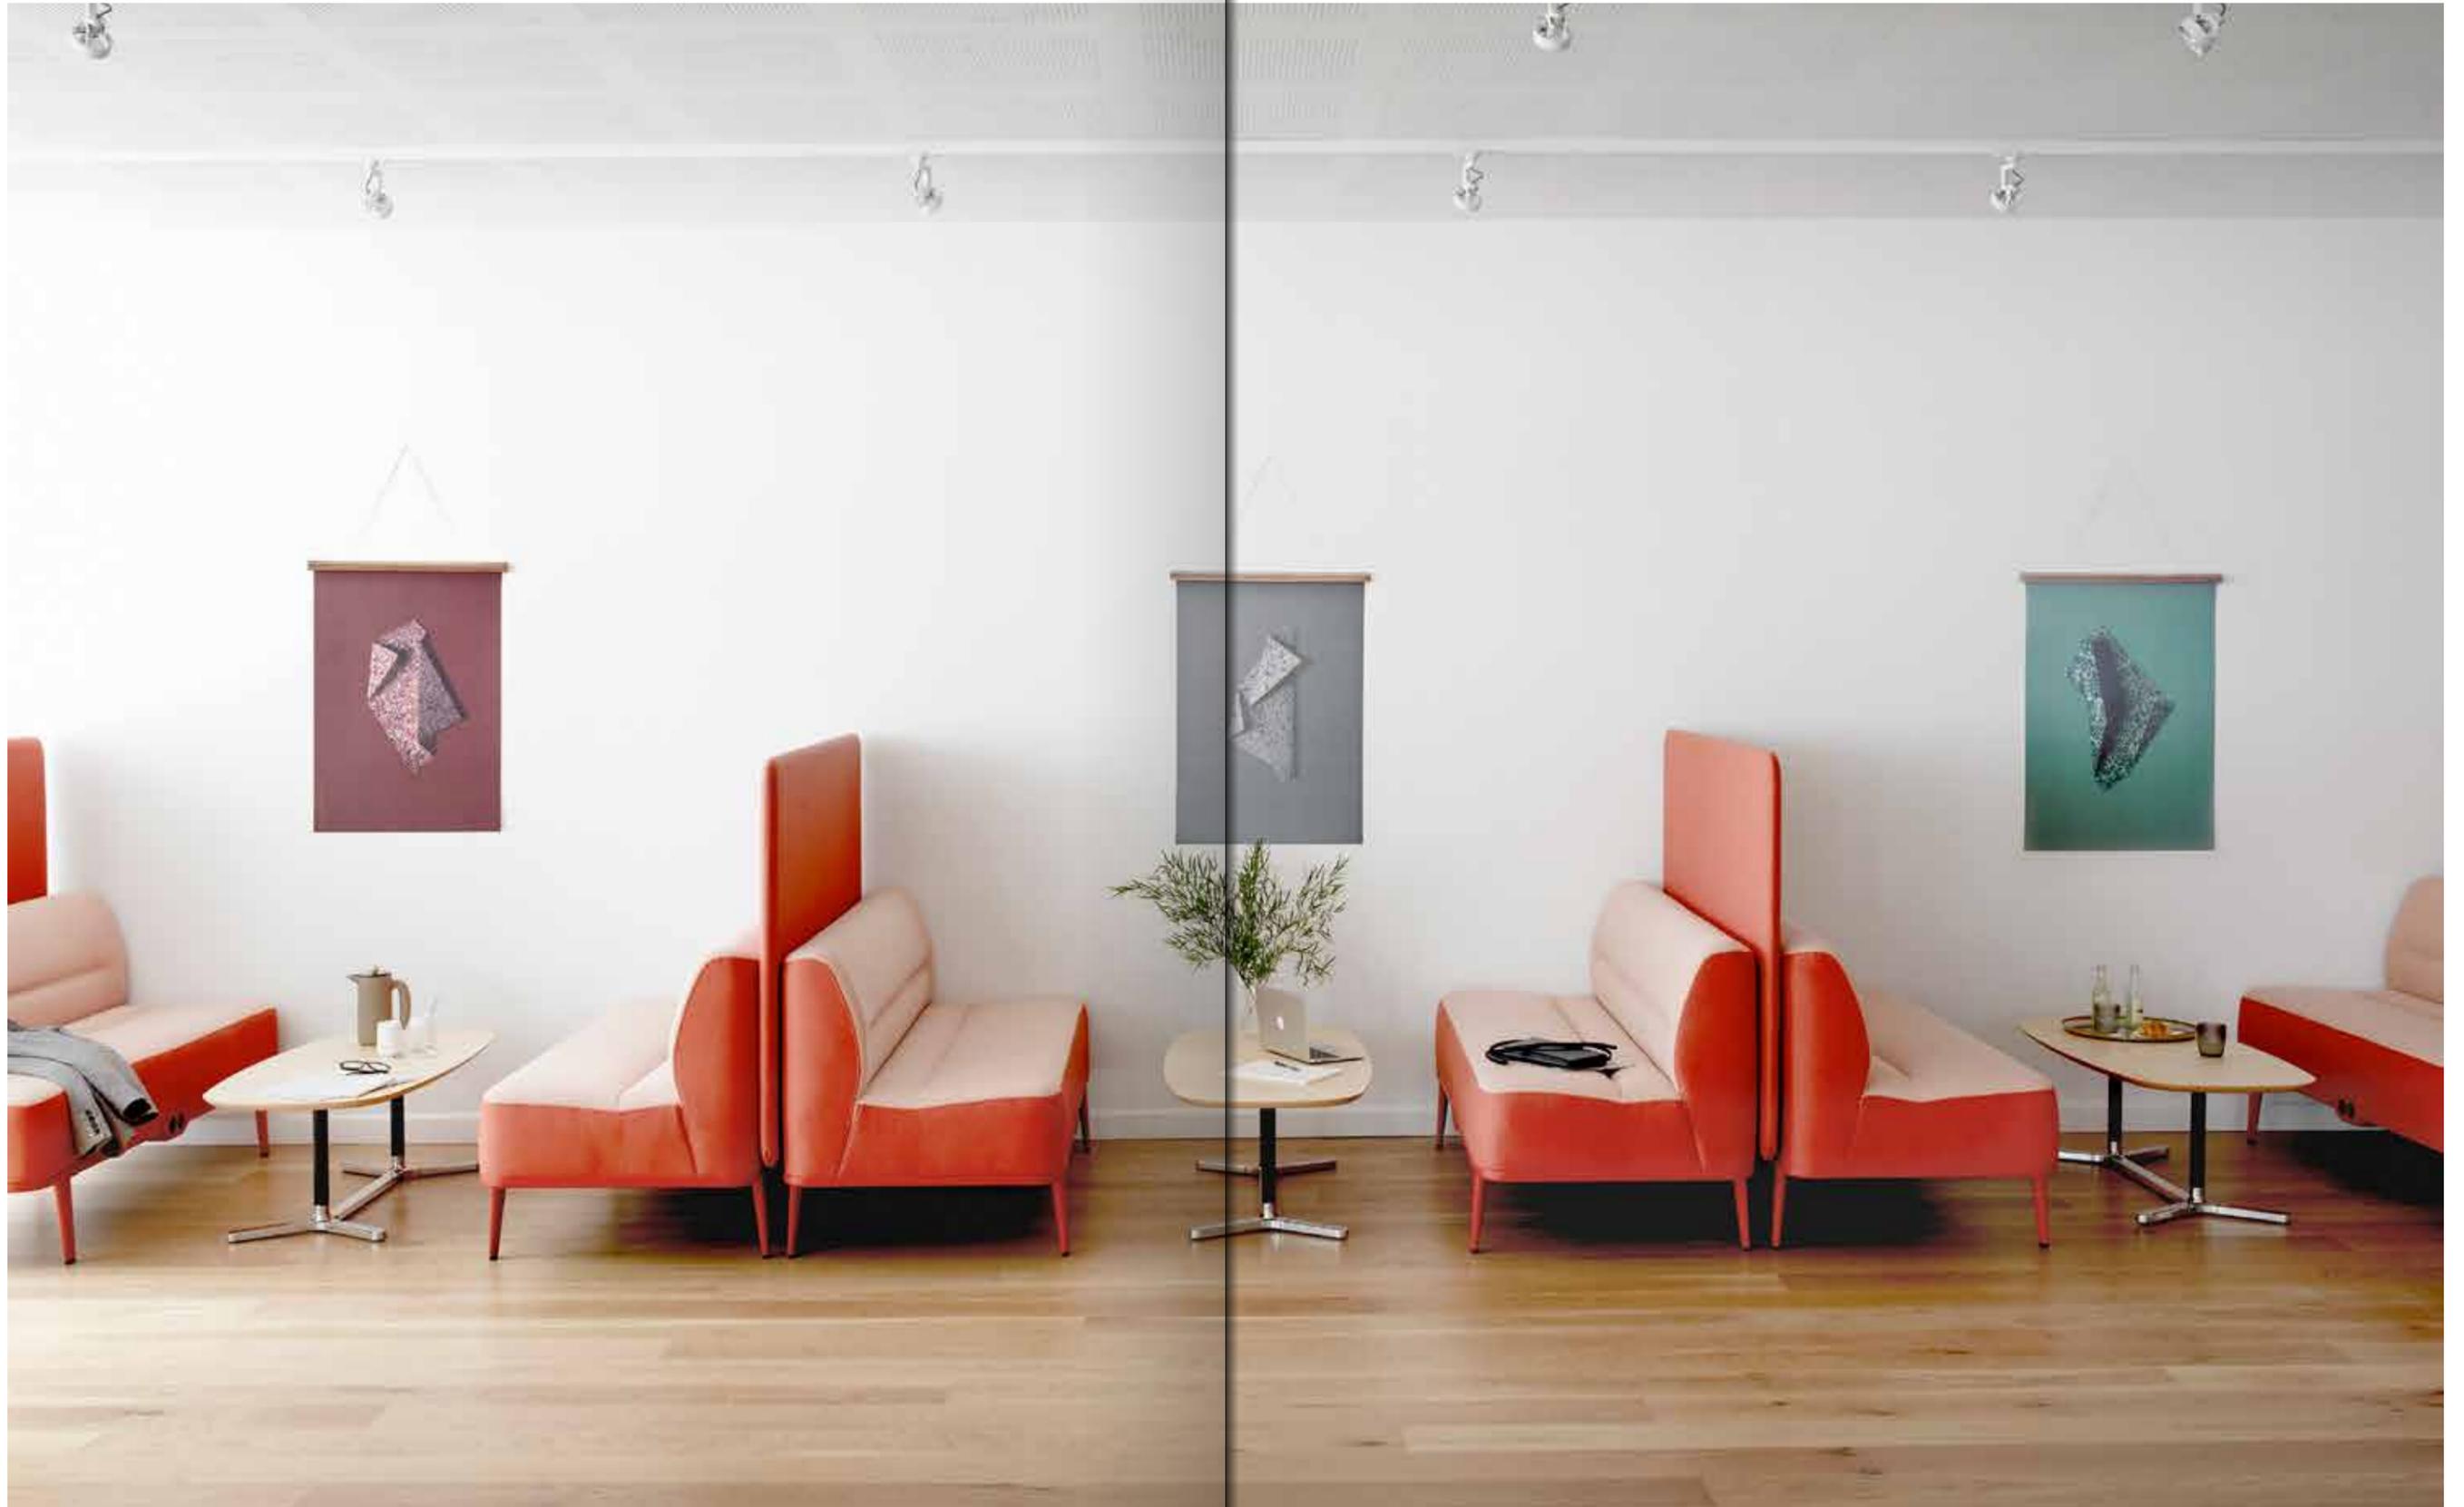

Mote Storage

Mote storage has been designed to complement the full range of
Mote seating. Featuring a contemporary silhouette, Mote storage
comes in three heights that share a common design language, ideal
for meeting rooms and collaborative environments.

VERSION 1
Mote storage has been designed to
complement the full range of Mote
seating. Featuring a contemporary
silhouette, Mote storage comes in three
heights that share a common design
language, ideal for meeting rooms and
collaborative environments.
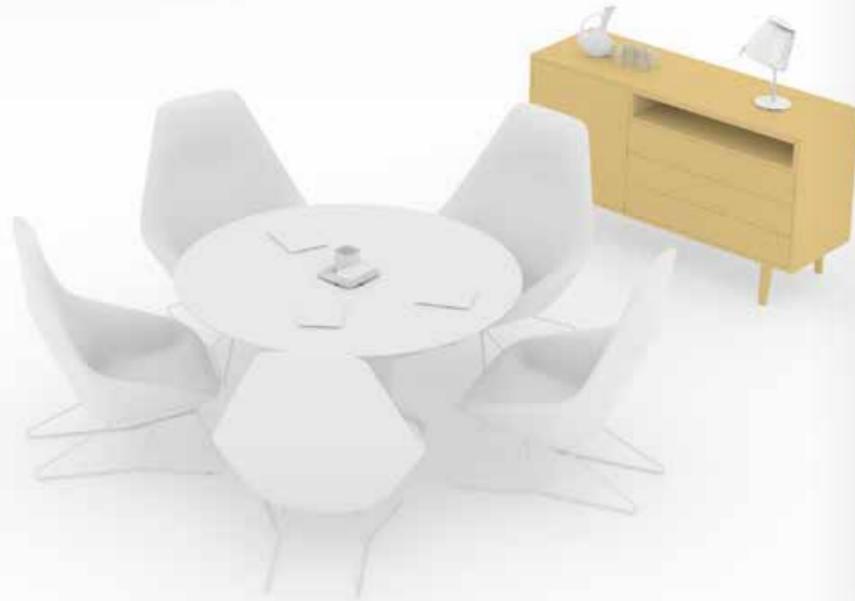

VERSION 2
Low Board storage is ideal for
positioning beneath a large screen;
Sideboards and High boards are
a beautiful accompaniment to any
meeting room and all can effortlessly
house a number of multimedia
devices.

Pods

Pods nestle and tessellate to maximize available space, allowing the
creation of a community of environments and destinations.

SOLO

Solo provides a solution
for short term desk
based environments, be
it for individual focused
work away from the
general workstation
environment or as a
temporary location
for a non desk based
employee.

Solo incorporates
a switchable task
light, desktop power
and vertical cable
management. The
increased height delivers
both additional visual
and acoustic privacy.
The 1800 high Pods
come with lights as
standard.

SOLO PLUS

Solo Plus builds upon
the functionality of
the Solo but with a
larger footprint and
wider work surface.
Solo Plus incorporates
a switchable task
light, desktop power
and vertical cable
management

The increased height
delivers both additional
visual and acoustic
privacy.

DUO

Most impromptu
meetings within the
office environment will
tend to be within small
groups, at workstations
which disrupt colleagues.
Formal meeting spaces
tend to be for larger
groups, so using these is
inefficient.

Duo provides a location
for ad-hoc, face to
face meetings and its
compact footprint
allows it to be collocated
within workstation
environments. Duo
incorporates a table
top power solution
and vertical cable
management.

QUAD

Providing a compact
stand alone meeting
solution for up to four
people, its footprint
easily allows the
Quad to be positioned
strategically. It can
be placed amongst
workspaces individually,
in clusters as a meeting
place or as a booth
seating solution.

Quad incorporates
bench seating along its
sides and a stand alone
table.
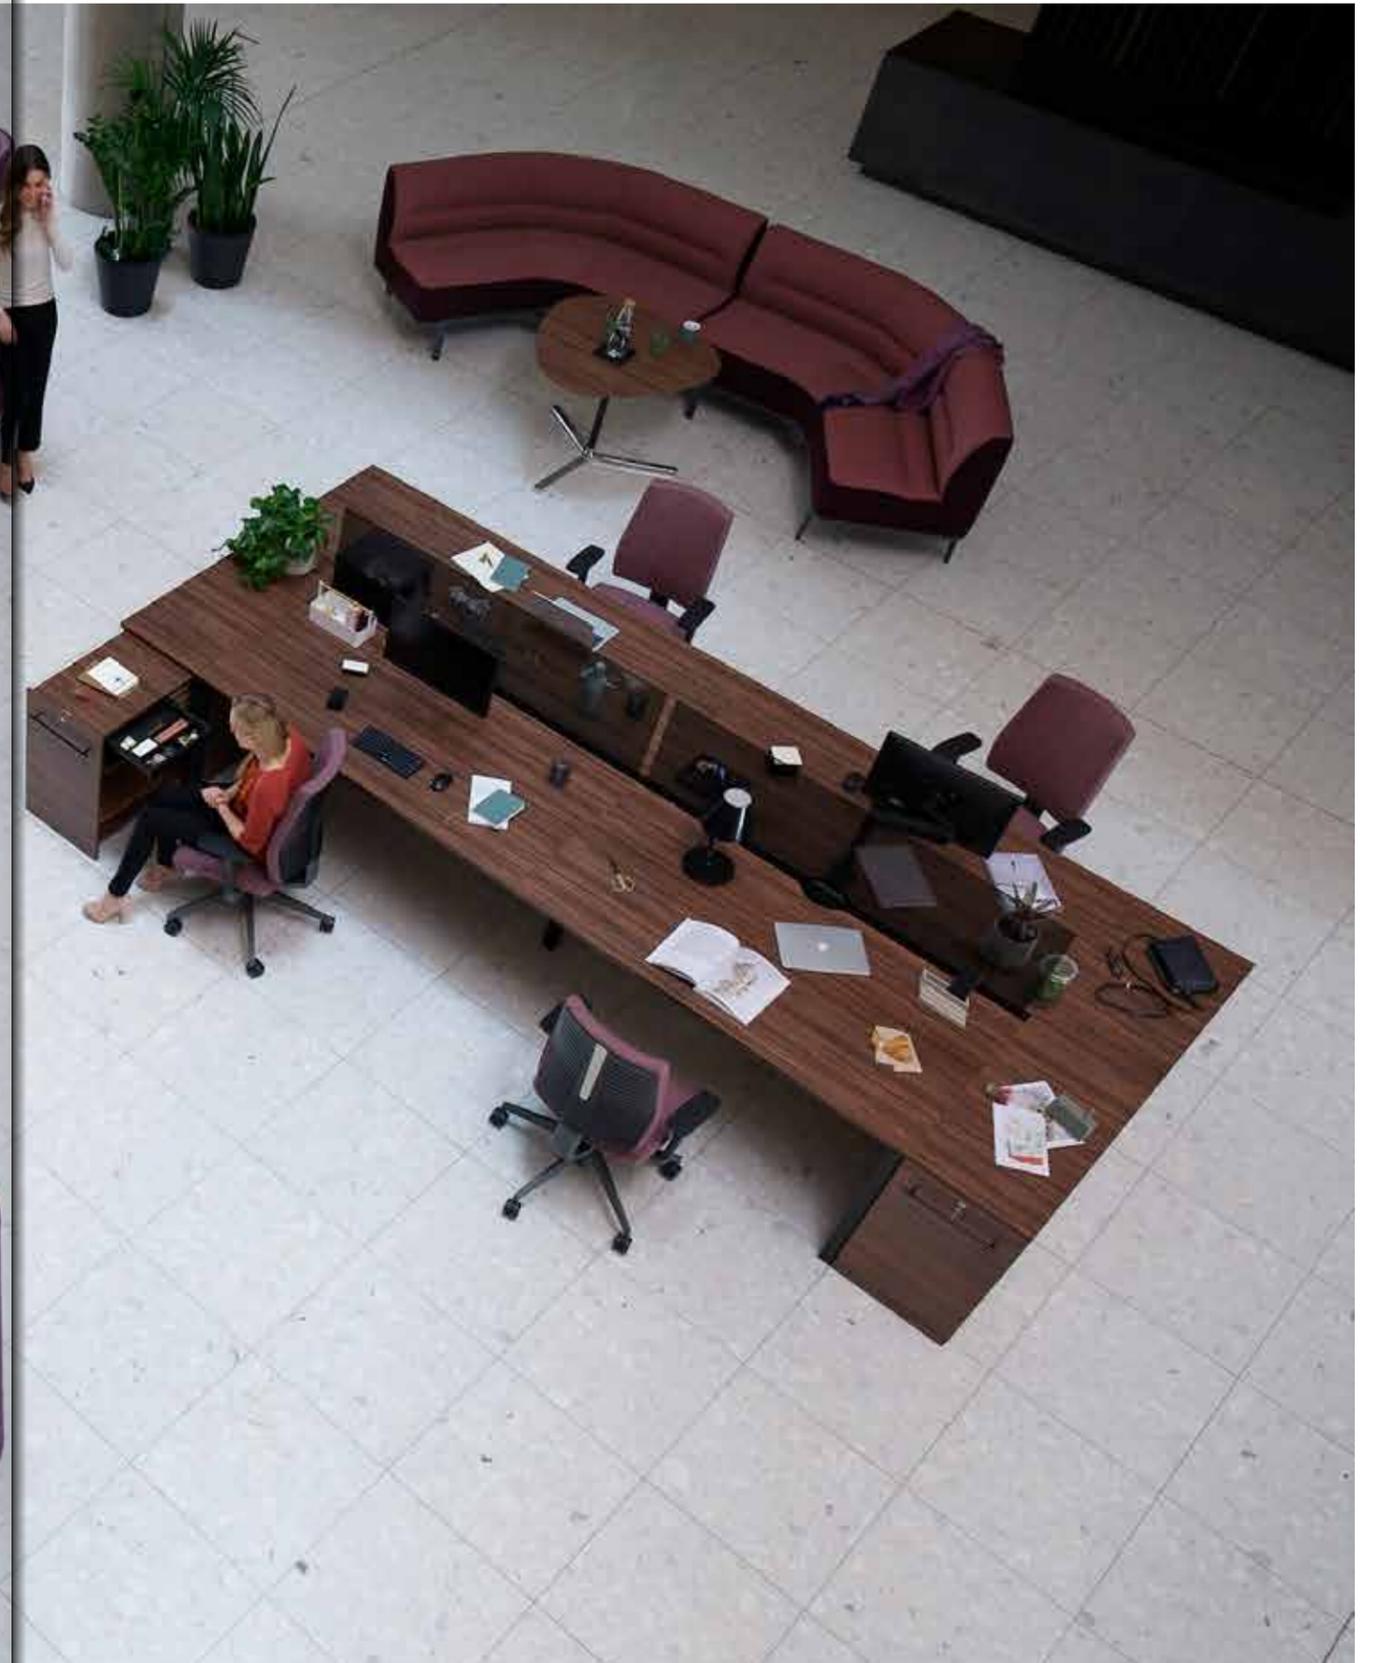

Pods

Pods are ideal for either an individual within a desk based
environment looking for a space to focus or for teams to gather
for impromptu meetings.

TEAM WORK

Team Work provides, as its name suggests, a
structure for teams to work together. Its footprint
allows for up to six people to be accommodated.
Team Work does not include any internal
furnishings but can encapsulate freestanding
furniture solutions providing privacy to that setting.

This approach makes the Team Work Pod perhaps
the most flexible within the range. As video
conferencing and sharing of information on large
format screens, by multiple users, becomes more
commonplace in the office, Team Work is also
available with a support panel upon which to mount
a screen.

TEAM MEETING

Creating informal environments for team meetings
where groups of up to ten can meet to talk and
share, for the morning briefing, the quick brainstorm
or the afternoon coffee. The bench seating solution
and small freestanding central table support a
concept of quick discussion and resolution.

TEAM RESOURCE

Within open plan office environments it is more
common today for employees to share resources like
printers, scanners and facsimile machines. Aside
from the general ambient noise of an office it is
generally accepted that it is these kind of devices
whirring into life that provide much of the acoustic
and visual distraction of colleagues utilising them.
Team Resource provides a centralised location
for these shared resources along with storage for
consumables such as paper, cartridges and waste
solutions including recycling stations all within the
acoustic shadow of the Pod system.
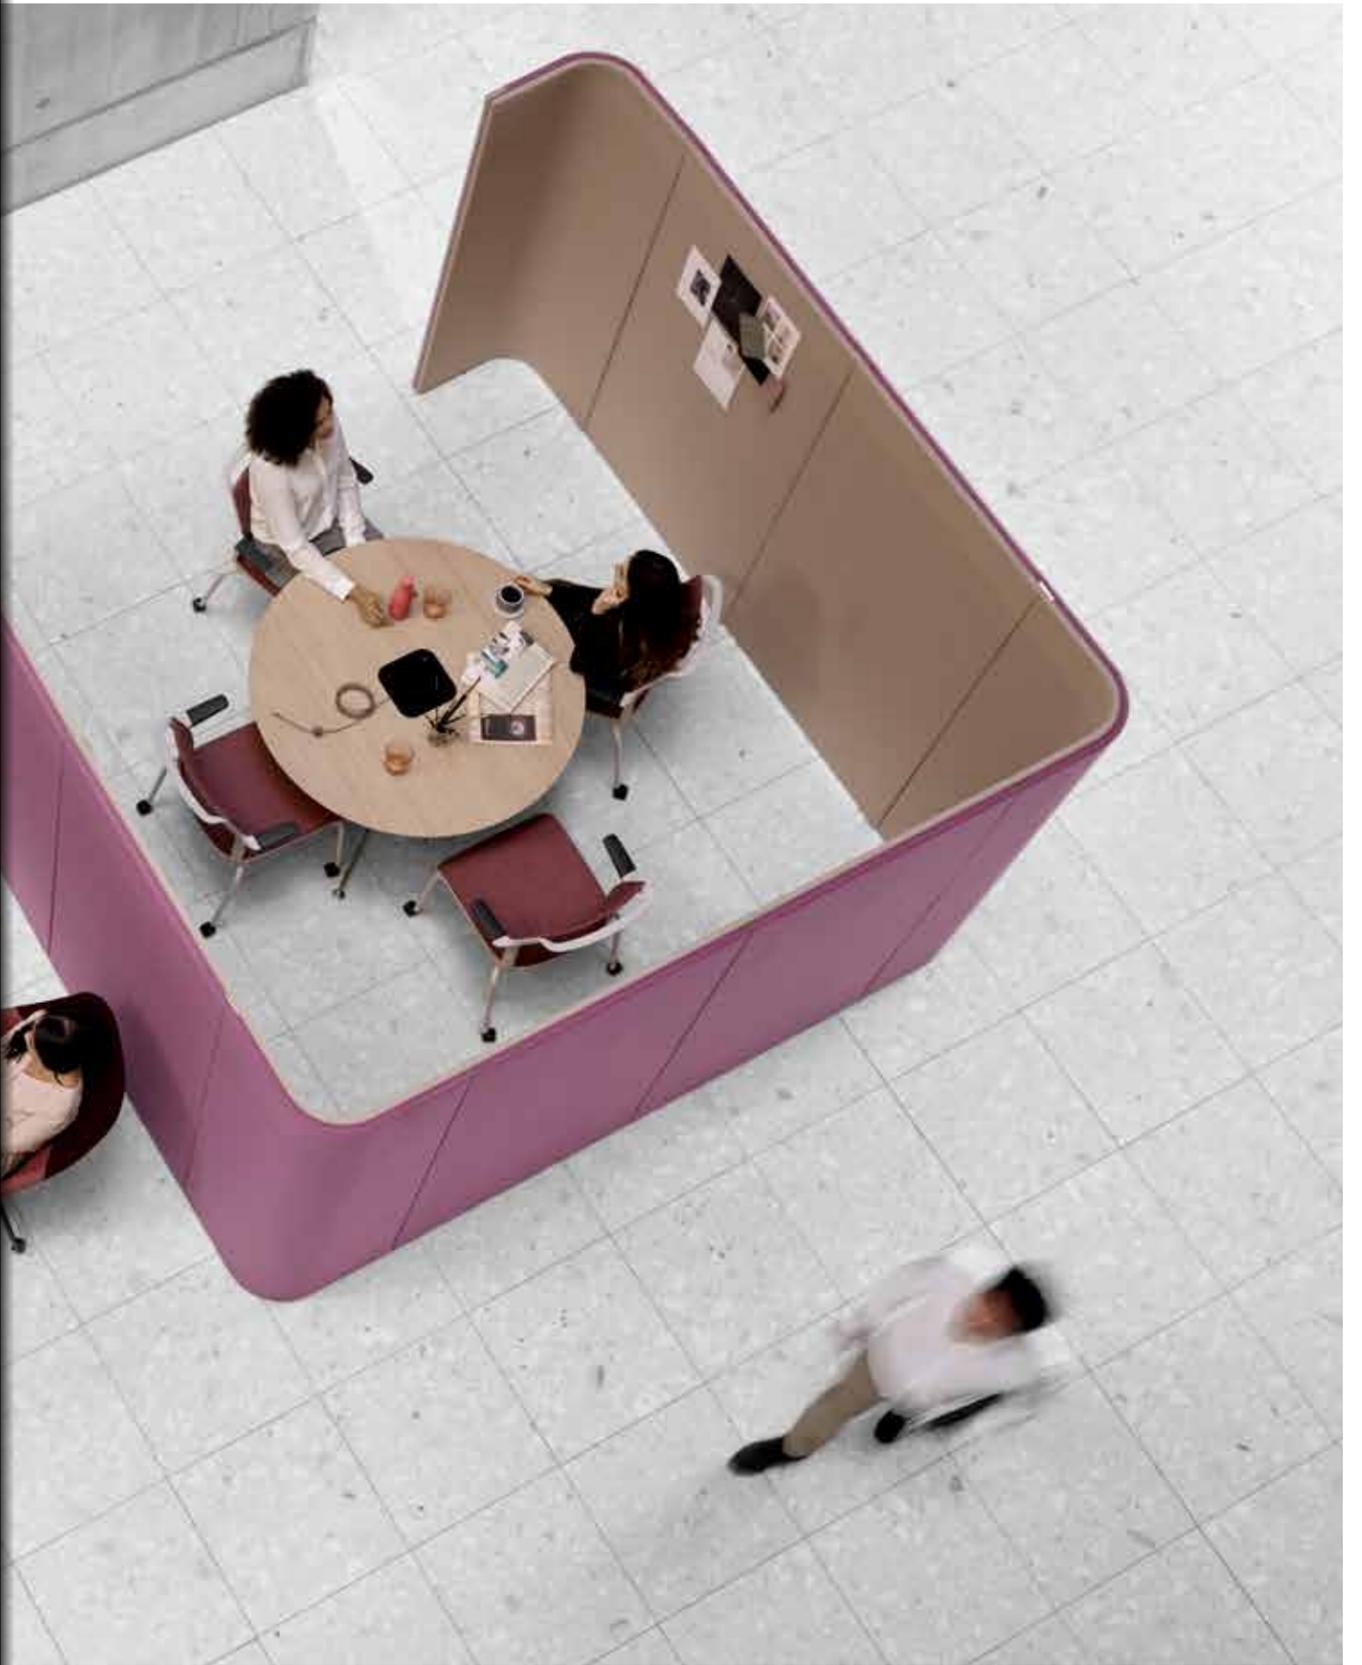

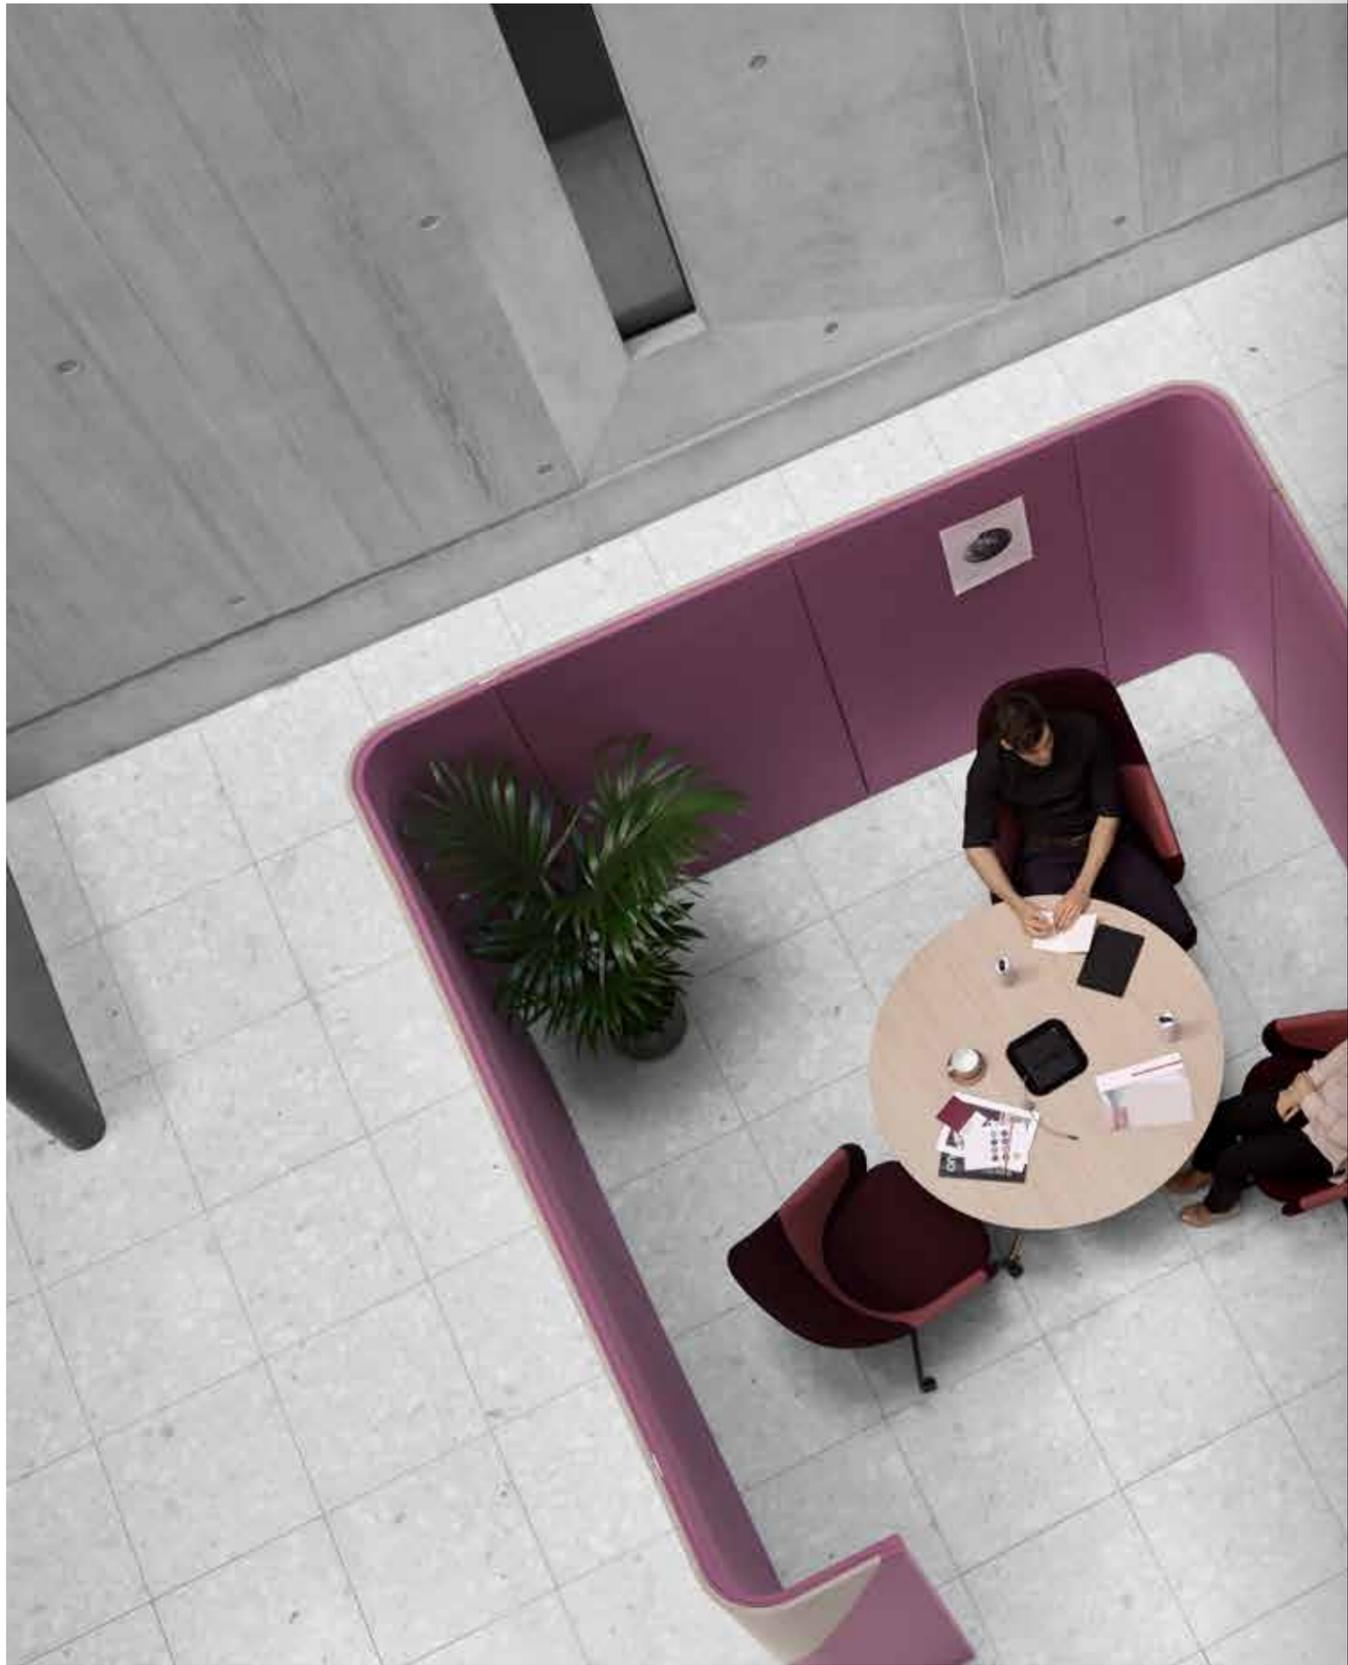

Pods

Looking at the changes we see happening in the workplace, the responses to the research we have conducted and client led specials we have developed in recent years has provided inspiration for the development of a new family of Pods.

SOLO ABODE

A new simpler rectilinear shape that incorporates a larger 1400mm wide x 800mm deep work surface with full under-top cable management. the top incorporates a scallop to allow for a monitor arm and desk top power.

SOLO ABODE+

The increased size incorporates a 1650mm wide x 800mm deep work surface. The entrance is sufficient to provide DDA (wheelchair). Available with a fixed desktop or height adjustable crank desk.

DUO ABODE

The development of a new 'T' junction panel allows two Solo Abode's to be configured as one unit, saving space and cost.

QUAD ABODE

To bring four Abodes together we have developed a new centre '+' panel. This allows the user to deploy four Abodes in a similar space to a four man bench, whilst the sharing of panels provides a significant cost benefit.

Pods

This new family of Pods has been developed to respond to what people tell us they want, to facilitate how people want and need to work; to focus as individuals or in group spaces.

The enhanced work surface size allows fixed pc's to be used and complies with legislation for use as a primary workspace.

The ability to deploy multi-person configurations that share panels provides significant benefits both in terms of space utilisation but also the cost.

ENCLAVES WINDMILL
To allow multiple Enclaves to be deployed in an open plan environment we offer two standard four person configurations. They offer significant benefits in terms of their space utilisation and per head cost.

ENCLAVES 4 BACK TO BACK
The Back to Back variation of the Enclave Pods create individual private spaces for working without the need for additional infrastructure in open plan environments. The upholstered panelling can offer acoustic benefits as well softening the visual landscape of the space.
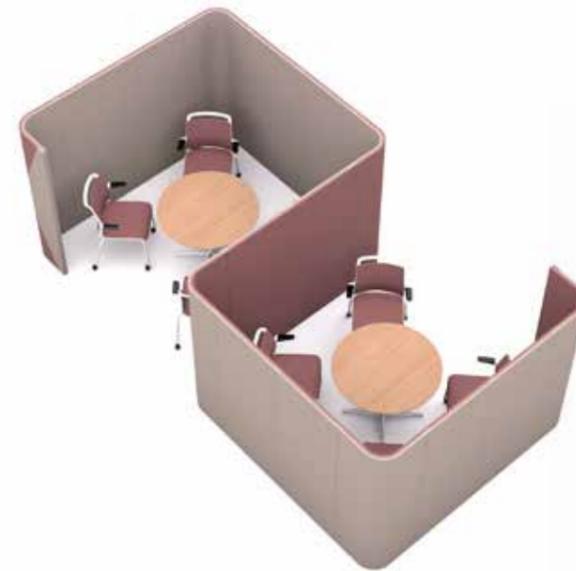

TEAM SPACES
The new panel configurations allow us to create a double meeting space that optimizes the interior space available to accommodate a variety of furniture solutions. This Pod also works effectively as a space divider that an be deployed without impacting on any building M&E services.
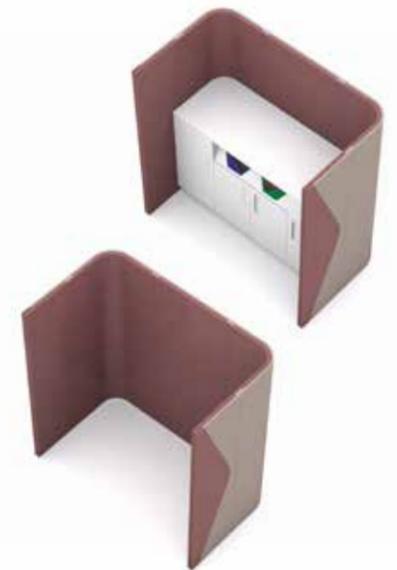

RESOURCE CORRALS
A solution for hiding away, the printer, coat racks, recycling storage, vending machine etc.

POWERED BY PRIVACY

CellPod provides an excellent solution when creating privacy and collaboration spaces within work environments. They are designed as freestanding units and feature a structural framework with a demountable panel system so they are simple to install and reconfigure as needs change within an organisation.

In addition to the standard configurations the CellPod system can be designed and manufactured to your own specification providing unrivalled solutions for individuals to work in privacy and isolation through to comprehensive meeting room environments.

CellPod

CellPod provides an excellent solution when creating privacy and collaboration spaces within work environments. They are designed as freestanding units and feature a structural framework with a demountable panel system, so they are simple to install and reconfigure as needs change within an organisation.

Vee

With its simplistic, inviting form, complimented by full, sound absorbing upholstery, as well as integrated power and under seat storage, Vee is ideally suited for quick touchdowns or a place to re-charge. Winner of the IDA RED Award, designed by Q Design is a perfect solution that allows individuality and collaboration to happily co-exist.

SOLO

Each configuration is designed with you and your space in mind. The flexibility of the design and the space available. The Solo offers a space to reflect and recharge, with the opportunity to easily share and collaborate, in a quiet, relaxed space.

SOLO DIVIDE

A configuration that not only offers a private, yet collaborative space to work. The 'S' Style shape, with a mix of Left and Right handed single units, can also provide a natural acoustic barrier and separation across any open Office landscape.

Talon Tables

Talon is a stunning collection of versatile laptop and occasional tables designed to accompany soft seating in lounge or breakout areas. The innovative delta shaped laptop table can be used alone or clustered together for ad-hoc collaborative working. High and low occasional tables in a variety of complementary shapes and finishes complete the range.

TALON DUO

In today's demanding office environments, movable work spaces are key. The Talon Duo provides a large enough space, that nestles perfectly in to any setting, offering remote and moveable work stations, quickly and easily.

TALON SOLO

The elegant and sophisticated Talon Solo, provides a quick, easy and beautiful solution to moveable work station solutions, not only that, the Talon lends itself perfectly to Reception, Welcome Spaces and Hospitality Settings perfectly.

Revelation Tables

Senator's collection of Education Tables were designed with versatility in mind. The variety of shapes and sizes were created to support the different learning requirements found in educational and training environments.

EXAMPLE CONFIGURATION

With such a wide scope of configurations available including crown theatre, trapezoidal, multiple clusters, plectrum and rectangular to name a few, there is something to fit every space.

Revelation Tables

After looking at how people work, communicate and interact in learning environments, this table collection was designed with a unique range of top shapes and sizes to create dynamic spaces.

EXAMPLE CONFIGURATION

The re-configurability encourages the simple transition between and creation of classroom, discussion and group work spaces. Tables can be specified with adjustable feet or castors for additional manoeuvrability.

Hub

Designed to be a destination in open spaces, the unique curved structure of Hub creates a point of visual interest within the landscape. Naturally simplistic in its form, Hub is constructed of a three piece structure that fits together to create a singular fluid arch.

EXAMPLE CONFIGURATION

Hub is a unique fully upholstered meeting pod. Available as a two seat, or as a four seat module, both come with integral LED down lighting.

EXAMPLE CONFIGURATION

Lights are operated via an infrared switch for ease of use which is located in the roof. Complementary to any space, Hub can be upholstered in a wide range of fabrics and is available in one or a two tone colour finish.

Locked

Locked is a range of personal storage lockers designed for modern ways of working. Door configurations are available from two doors up to eight doors and units. Each door is supplied with 170 degree exposed knuckle hinges for ease of access and are secured with a key lock, and name card holders are fitted as standard. Other lock and locker identification methods are available.

Dine / Pinnacle

Dine is a range of standalone rectangular tables and benches available in a variety of sizes and finishes designed for dining, breakout or meeting areas.

PANEL

Where traditional benches meet contemporary design. The Panel Bench offers a standalone rectangular benching system, perfectly created for dining, break out or meeting areas.

MITRE

Compact and well-constructed, Mitre is perfect for Breakout, Dining, Meeting or Informal Areas where space is a consideration. It's neat design, adds the opportunity to store away the seats when the Bench isn't being used.

DINE STEEL

The Dine Steel is a range of rectangular tables and bench systems that can be made bespoke to fit any environment. The exposed steel edge, gives the system a unique aesthetic and can be finished to compliment any surrounding.

PINNACLE

The A-Frame, angular exposed Steel Frame work, offers a beautiful design feature with both function and form. Pinnacle offers a multi-functional space that can fit in any Office, Dining, Break Out or Meeting Space.
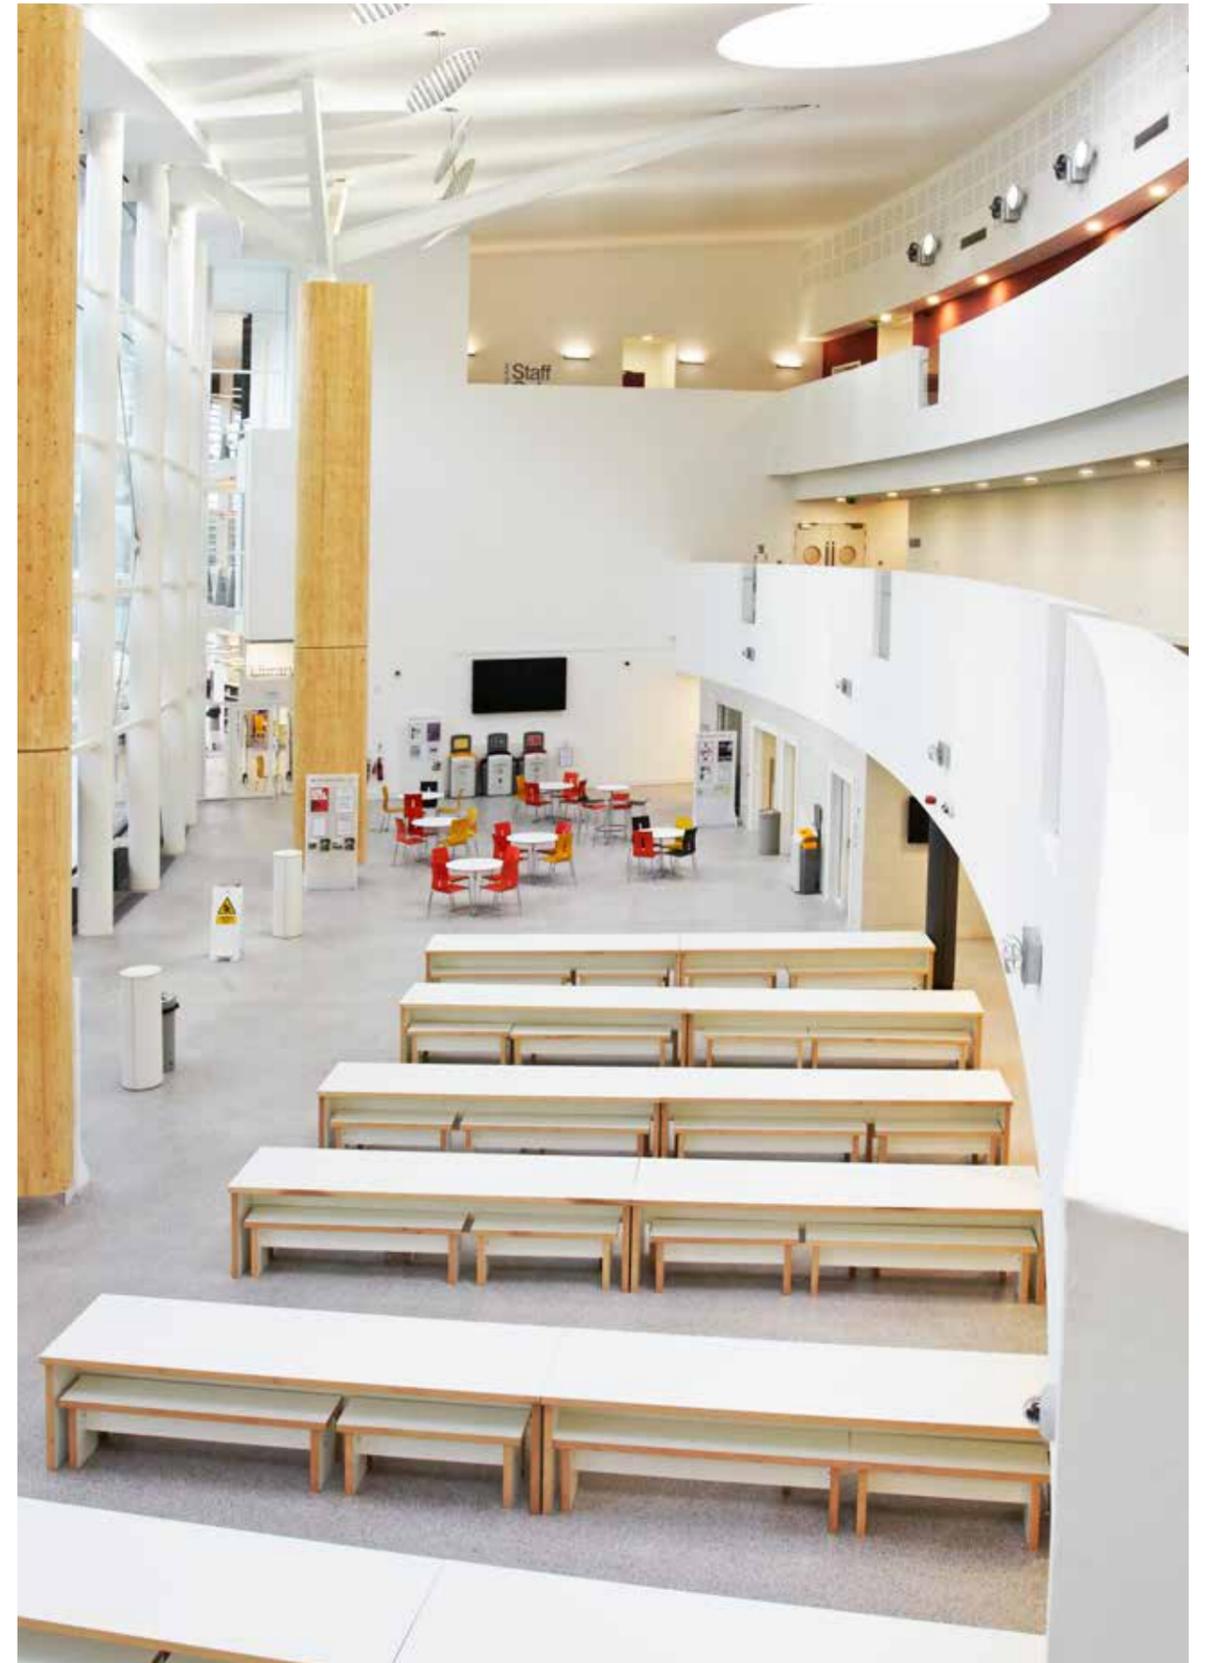

Media Table

The AV Media Table has been developed to facilitate collaborative
working environments using laptops, tablets and smart phones,
with accessible power via a flip top unit in the desk panel.
Available in two heights and a range of finish options.

Allermuir

Allermuir designs contemporary furniture that <u>defies</u> expectations.

1.

Quincy

Quincy is a modern dining or meeting chair with an elegant, paired down construction comprising of a seamless polyurethane shell and four solid hardwood legs, poised on nylon glides.

2.

Casper

The classic Casper design has been evolved to include a new palette of contemporary colours, whilst maintaining the juxtaposition of a high gloss exterior and matt interior. The shell colour continues through to Casper's legs for a tone on tone effect.

3–4.

Tonina

This innovative and dynamic chair delivers a contemporary design that has a multitude of possible applications across a variety of marketplaces. Tonina delivers a flawless product with fantastic strength, which is suitable for use both indoors and outdoors.

5.

Kojak

Kojak utilises a moulded one-piece polyurethane seat shell that appears to seamlessly blend into the tubular Steel legs that carry it.

Kojak is a striking collection with universal appeal offering comfort and contemporary style.

6.

Soul

The design seeks to embrace the technological possibilities of structural injection moulded plastics to reinvent the ubiquitous steel cantilever chair. The concept delivers a flexing organic form that provides true ergonomic comfort and support to its user.

1.

Jaicer

When designing Jaicer, we set out to create a simply beautiful chair that was constructed entirely from wood. Jaicer has been created to work across a multitude of environments; be it for ad hoc use in a contemporary workplace, or as an elegant statement in a meeting room or café.

2.

Nuno

Born out of a desire to approach a traditional design typology, this multi-purpose stacking chair's defining characteristic is the use of the lamination itself as a structural component, whereby the leg frame and the seat are integrated and interdependent providing strength.

3.

Scoop

Visually minimal, Scoop is simple, compact and clever. Clever because each item can stack, be it a chair, armchair or stool. Simple construction tubular steel frames and pressed ply seats with their unique character give Scoop a freshness over and above existing mono shell designs on the market.

4.

Curve

Curve offers a high level of comfort and shape, whilst uncompromising on style and function. This stacking chair and stool have a slender chrome wire frame that complements the elegant, balanced ply form, available in both side chair and armchair versions with the additional option of a high stool.

5.

Axyl

Axyl is a seating collection offering a sophisticated combination of recognisable elements. Comprising of an arm chair and stool, Axyl utilises a strong geometric design language that is entirely original yet draws on familiar references to create a range of highly functional seating.

1.
Phoulds

Elegance, poise and comfort were the words that guided the development of Phoulds. A meticulous joining of two pressed plywood shells create the chair's structure which is lined with a distinctive six panel upholstery style.

2.
Tommo

The contemporary and intelligent design of the Tommo range places it easily in a host of spaces. The fully upholstered chair features slender upholstery styling and twin stitch seam detail, complemented by an elegant skid base.

3.
Cardita

Cardita is inspired by the beautiful leather seats found in luxury vintage cars. A simple yet intelligent frame is complemented by classic upholstery detailing which not only exudes opulence, but is also exceptionally comfortable.

4.
Mollie

Our new variants of this popular chair retain the classic silhouette of the original design whilst featuring a deeper, fuller back support and a slightly more generous seat width. A luxurious and satisfying design, Mollie is suited to hotel and restaurant dining, bars or corporate environments.

5-6.
Famiglia

The Famiglia seating family includes a collection of low, mid, high back and lounge chairs that between them offer a choice of metal or wooden legs and 5-star bases.

The range shares a soft geometric styling that although contemporary in appearance, also invites comfort.

Tarry

The luxurious wing lounge chair has a versatile style that is the perfect accompaniment to both modern and vintage interiors, whilst the acoustic properties of the seat's wing panels make the piece ideal for breakout areas and executive lounges, or hotel and hospitality environments.

2.

Tarry Wood

Tarry creates a feeling of seclusion in an open space. Designed to facilitate private discussion or quiet contemplation, the intention with Tarry was to create a collection of lounge furniture with precisely considered proportions, the highest level of comfort, superb execution in terms of upholstery detailing and an innovative approach to construction and functionality.

3.

Grainger

Grainger is a luxurious family of wingback armchairs and matching ottoman. Available as a high and low back, featuring exquisite upholstery detailing including piping and a deep buttoned back.

Now including an elegant side chair, dining chair and stool.

4.

Stirling

Stirling's presence is emphasised by the robust yet elegant floating leg frame. Designed to accompany the Stirling sofa range, this table will suit a wide range of spaces including reception, lounge and breakout areas across leisure, hotel, retail and office environments.

5.

Oran

Characterised by the combination of a soft appearance and feel, with a precise and defined upholstery detail, Oran is a modular sofa system designed to work in both workplace and hospitality environments. The rounded and voluminous interior of the sofa is restrained by a defined seam, which leads the eye with ease around the sofa profile.

Sofas

4-5.
Axyl

Axyl tables follow the same design typology and constructional values as the rest of the Axyl collection, featuring the distinct frame. A table for every occasion. Axyl Café & bistro tables are perfect for smaller gatherings while the dining tables suit larger groups and more formal settings.

Dining & High Tables

1. TRT1608RC

2. PAC90RD

3. CRQCT03

4. AXLR1609

1.
Turo

The bezels of vintage dive watches inspired Turo's slim fluted leg profile, which in turn have been crafted with the same precision. The icosagon shaping of the leg adds a subtle focal point without disrupting the simplicity of its silhouette. Available as square, rectangular and round tables in varying sizes.

2.
Pache

Pache is a beautiful family of café tables. Round, square and soft chamfered rectangular shaped tables are available in a variety of finish options.

The tables' elliptical solid Ash legs can be left clear, stained or colour washed, complemented by a range of accent colours.

3.
Cirque

Cirque tables feature turned out solid ash legs mounted into a Steel sub frame. Available in a variety of top shapes and sizes with a host of top finishes, Cirque tables provide a superbly elegant solution.

4.
Axyl

Axyl tables follow the same design typology and constructional values as the rest of the Axyl collection, featuring the distinct frame.

A table for every occasion. Axyl Café & bistro tables are perfect for smaller gatherings while the dining tables suit larger groups and more formal settings.

Work Tables

1. FMGBT1212

2. HLT2

3. SLHP1809

1.

Famiglia

Famiglia's work tables, designed for ad-hoc meetings and touch down spaces, are available in two heights, featuring a soft square top in various sizes. The tables' cast metal base features an innovative tech knit sock which also acts as cable management when used with an integrated power module.

2.

Host

Host is a standalone table for use as a laptop support or work surface and is proportioned accordingly, with a weighted stable base and elegant column. A convenient hand grip to the underside of the edge together with slides under the base plate allows the user to easily glide the table closer.

3.

Silta

Silta is a high table with the provision of power and structural integrity to support a variety of work, meeting and dining functions. The design fuses materials seamlessly to create a product of stature and presence. It creates a location to gather; to work, to dine, to discuss and also the option to charge the plethora of mobile devices we have all come to depend upon.

This range of plectrum shaped occasional tables offers a variety of sizes and heights which can be clustered to create a unique shape. These simple yet elegant tables can be finished in a range of finely textured, mineral coloured powder coated finishes.

2.
Oran

Designed to complement the soft appearance of the modular sofa system, the Oran table collection works well in both workplace and hospitality environments. The range includes a variety of top sizes to choose from, all carried by a minimal powder coated Aluminium frame and cast Aluminium corner leg.

3.
Famiglia

Famiglia's occasional table recognises how dramatically our office and hospitality landscapes have evolved in recent years. This low level table is as well suited to a hospitality environment as it to a break out zone, or even interspersed within the office as occasional touch down and meeting points.

4.
Lola

Lola is a seductive, curving and shapely, yet strong and dependable collection designed as a contemporary, visually lighter alternative to the linear forms typically used in corporate environments. Lola will work equally well in corporate atria, executive lounge areas, airport lounges or informal meeting areas and breakout spaces.

SOMETHING
FOR EVERY BODY.

90Series

100Series

100Series

200Series

300Series

Headrest
The addition of an adjustable headrest supports the user in reclined positions, relieving stress within the neck muscles.

Fold Down Arms
Fully adjustable fold down arms allow easy access to the workstation.

Inflatable Lumbar & Thorax
By using the pneumatic pump the lumbar or thorax can be inflated or deflated as required.

Seat Slide
A sliding seat adapts to different thigh lengths, allowing the user to optimise their own comfort and support.

AirTech Seat Board
A push of the button allows air to flow through the two way valve; this enables the seat to move as you move and moulds to your natural shape.

ORTHOPAEDICA

90Series

The **90Series** is the original model of Orthopaedica, built with a contoured seat and backrest; it provides high levels of support during prolonged sitting periods. Orthopaedica can be further enhanced with the addition of optional features including: seat depth adjustment, inflatable lumbar and thoracic supports and a choice of arm options.

ORTHOPAEDICA

200Series

Every individual is unique in their proportions, which is why we developed a range of back heights within the Orthopaedica range. The mid back variation is built with a laminated core; the **200Series** is available with an upholstered outer and inner back.

ORTHOPAEDICA

300Series

The expansion of the Orthopaedica range has led to the creation of the ultra high back, to offer the ultimate in support and comfort. Developed with a laminated core structure for additional strength, the **300Series** features a fully upholstered back.

WORKING TOGETHER

The workplace is evolving in the way people work and the technology that we work with. Elegance bridges the gaps with the demands of the workplace creating a space within a space.

The Elegance booth creates a unique and comfortable place for people to work, collaborate and breakaway from the formal desk space.

Easily installed in to any environment, the high back structure creates an acoustic barrier that can help eliminate distractions from the surrounding areas, for an uninterrupted work space.

The scalloped cable access at the back of the integrated work surfaces allows integral routing for cables to optional power outlets positioned below.

The integrated work surface provides a convenient place to touchdown and work, constructed of 25mm MFC the table top can be specified in a choice of 5 finishes.

To discreetly connect cables from the surface down to the floor with causing visual distraction the booths intermediate panel features a fabric cable management pocket.

ELEGANCE

The simple crisp styling of the high back **Elegance** sofa group has been developed to respond to the growing demand for this type of seating in the workplace.
